Chinook Fair Cancelled

After holding a fall fair every year for seventeen years, it was decided at a meeting of the directors of the Chinook and District Agricultural Society last Friday night to cancel the fair for this year.

While it is probable that on account of hard times the fair would not be the success financially it has been in other years, yet it is regrettable that the fair should be cancelled, as no doubt many have already prepared exhibits and are still preparing.

We have had just as backward seasons for roots and vegetables as this year, and yet the display of these commodities have always been good, and there is time yet for the gardens to develop these articles before the date of the fair. However the directors have decided not to hold a fair this year and it has been cancelled.

Myrtle School Report

Myrtle school closed June 30 with a picnic which was well attended by everyone in the district. A sumptuous lunch was enjoyed by all in the early afternoon, after which a game of softball was played between the school and the district, the score ending in a tie. Other games were played until late afternoon, when the party broke up after being served ice cream and cake again in the school. Mrs. Neal, the teacher, gave out the prizes for the year's winnings, the winners being Norma Hobson, Wayland Hobson and Kathleen Jackson. Norma, Wayland and Melvin Hobson have 100% attendance for the year. Norma and Wayland attended two hundred days and Melvin only stayed home between examination papers.

Mrs. Neal visited for a few days in the community and then left for Calgary Sunday evening with Miss Laidlaw, teacher of Collholme school. Murdoch McPherson has been engaged as teacher at Myrtle school for the coming year.

School Promotions

Grade 1 Jr to grade 1 Sr—Irene Haggerty.

Grade 2 to grade 3 Jr.—Kathleen Jackson 79.7.

Grade 3 Jr. to grade 3 Sr.—Terence Jackson 71.2, Elmer Haggerty 68.4, Lovina Britton 65.4, Mildred Britton 58.2.

Grade 3 to grade 4—Norman Jackson.

Grade 4 to grade 5—Wayland Hobson 80.1, Marguerite Hittle 79.3, Vernon Hobson 70.5.

Grade 7 to grade 8—Norma Hobson 77.3, Lewis Hittle 74.7.

Perfect attendance for the year, Melvin Hobson, Norma Hobson, Wayland Hobson.

Marie A. Neal, Teacher.

Rearville News

The Rearville school closed on Tuesday, June 30, for the summer vacation. The result of the examinations was as follows:

Hilda Wilton, Grade X, recommended for promotion in four subjects, wrote four departmental exams.

Isabel Crawshaw, Grade VIII, recommended for promotion.

Phyllis Wilton 71.7, promoted to Grade 6.

Harold Robinson 75, promoted to Grade 6.

Margorie Robinson, Grade 3, 56.

The prizes for arithmetic and spelling were won by Harold Robinson and Phyllis Wilton.

Annual U.F.A. Convention

The annual convention of the Acadia Provincial Constituency was held in Certeal on Wednesday of this week and was largely attended.

Mr. Proudfoot, our local M.P.P. and Mr. George Johnston, speaker of the legislature, was also present. He was accompanied by Mr. Fawcett, the manager of the Coronation Constituency Co-operative Consumers Association.

Mr. Proudfoot addressed the gathering, touching on the attitude of the government toward our present day problems. His address was concise and to the point.

Many resolutions were passed, perhaps the most important being the one to organize into a co-operative unit for purchasing purposes, similar to the Coronation Constituency organization. This resolution was put into practical operation at the evening session, and the necessary co-operative machinery was set up. Mr. Fawcett and Mr. Johnston gave valuable assistance to the organization. The officers elected were as follows: President, N. D. Stewart; Vice president, Jas. Cameron; Sec. Treas., Douglas Smith. Other trustees, Messrs Dibble, Baird, Marcy, Gordonier and Stephenson. The organization will operate for the benefit of U.F.A. members under the central buying agency where possible.

Resolutions were passed dealing with temperance instructions in schools and the liquor question. A resolution asking the government to immediately continue work as a relief measure on railways and the provincial highway which passes through this area, found whole-hearted support.

A resolution to request the wheat pool to adopt a system of handling grain for this year similar to the Manitoba plan, was passed by the convention. It was also passed when a vote was taken separately by the pool members present.

The officers for the Acadia Provincial constituency for the coming year were elected as follows: Pres., N. D. Stewart; Vice Pres., Mrs. C. A. Bishop.

Community Picnic

A picnic was held Wednesday afternoon at the Bradford grove, four miles south of town. The picnic was sponsored by the Chinook Women's Institute and the Ladies' Aid, and was the most successful picnic in every respect that has ever been held here. The Bradford grove is an ideal spot, with beautiful trees, good baseball diamond and tennis court. There were over 200 men, women and children present. The picnic was free to anyone who cared to attend. All those in town who had cars saw to it that no one who cared to attend were left out. Baseball and softball were the sports enjoyed. There was a real old-time feeling, and the tables were loaded with good things to eat.

Rain Improves Outlook

Rainfall started last Saturday night at 11:30 and lasted practically all night, with showers falling all day Sunday. Thus the entire district had another good rain which went down gradually into the ground and benefitted crops, gardens and feed greatly.

Earl Robinson, son of Lloyd Robinson, had his tonsils removed today at the Cereal hospital,

GROCERIES

Tomatoes, Corn and Peas, per tin	-	15c

Tires that cheat the Trouble Car

PUT on Goodyear Heavy Duty Tires and you can forget the question of tires for probably as long as you'll drive your present car.

Goodyear Heavy Duty Tires are the aristocrats of tires. They're extra-strong due to their specially built Supertwist cord carcasses. They're extra-tread due to their famous All Weather Tread. At present prices these rugged hard-service tires cost but a few cents more than you were asked to pay last year for standard tires.

Drive over and let us show you why our Goodyear Heavy Duty Tires can free you from tire trouble.

C. Britton, of Rearville, visited at the home of Mr. and Mrs. McPherson on Sunday.

The Anglican congregation of Peyton Mission entertained the Rev. and Mrs. Torpey and family to a farewell tea last Friday afternoon at the home of Mr. and Mrs. E. B. Allen, after which the smaller children presented Mrs. Torpey with a lunch hamper, packed by the ladies, for their journey to Heward. They left Tuesday for their new home by car and will camp on the way. We wish them every success in their new field.

The optimistic farmers are busy seeding oats for green feed.

There will be a U.F.A. picnic at Falkner's grove on Saturday, July 11th.

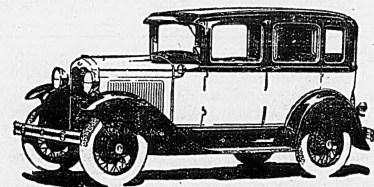

Harry and George Trogan returned home on Tuesday morning from Portland, Oregon.

There was quite a large congregation at the United church last evening to hear the evangelist, Mrs. L. Ford, of Los Angeles.

Ewart Duncan, of Collholme district, received word from the business college at Calgary this week, that he had passed successfully.

We are glad to report that Mrs. Berry has so far recovered from her lameness that she was able to be present at the community picnic.

F. E. Foster, of Edmonton, arrived here this morning and will spend a few days with his daughter, Mrs. N. F. Marcy and his many friends here.

The Chinook Advance

Cunard Line's Oldest Known Living Passenger Will Make Atlantic Crossing In New Vessel

If she can make the trip, Mrs. Loring W. Bailey, Cunard Line's oldest known living passenger, will make a trans-Atlantic crossing in the new 73,000-ton steamer now being built for the line on the River Clyde, Scotland, the first of a pair of swift mammoth ships that will supply a weekly service between New York and ports on the English Channel, making the voyage in four days.

Mrs. Bailey made her first trip to Canada on the Cunard liner "Cambria," in January, 1948, more than 83 years ago. The "Cambria" was a side-wheeler, carried sails, and made the voyage from Liverpool to Halifax in two weeks, being delayed by rough seas followed by dense fog. Her schedule time was ten days.

Mrs. Bailey, who is now in her 90th year, enjoys excellent health and recalls with remarkable distinctness the happening of a long and varied career. She is especially proud of the fact that she is the oldest living passenger of the Cunard Line, which had its beginning in her beloved Canada, in the old gray city by the sea (Halifax) where Samuel Cunard laid the foundations of the famous Cunard Line of today with a fleet of twenty-four ocean liners flying between Europe and America.

Born Laurestine Marie d'Avray, Mrs. Bailey was the daughter of the Baron d'Avray, and first saw the light of day on the island of Mauritius, in the Indian Ocean, off the east coast of Africa. It was then and still is one of England's sugar bowls and not a small one either.

When Laurestine was five years old her parents took her from her tropical home on a journey which was to end in cold St. John, New Brunswick, where the Baron had secured a position as Superintendent of Education in the Maritime Provinces. The journey was a long one. The family embarked on a sailing ship bound for Queenstown, sailing around the Cape of Good Hope. It took two-and-a-half months to reach the Irish port, their ship passing by the old steamer on the entire voyage.

After visiting London and Northern France the d'Avrays set out for Liverpool, where they embarked on the "Cambria" for Canada.

Landing at Halifax in mid-winter, Laurestine saw snow for the first time. She thought it was salt until she tasted it, but could not understand why it was so cold nor why it quickly melted in her warm fingers.

In travelling from Halifax to Saint John the family passed over the Coquebuit Mountains, in Northern Nova Scotia, in a rudely covered wagon, which was drawn for more than a hundred miles through the frigid country over glare-ice. Railroads had not yet made their appearance in that part of the country.

The girl's father was very successful in his new post with promotion until he held the chair of modern languages in King's College, now the University of New Brunswick.

It was while living at the college that Laurestine met and married a young professor who had come from Harvard, Loring Woot Bailey, who afterwards became famous as a scientist, and who was designated as a charter member of the Royal Society of Canada by the Marquis of Lorne. Dr. Bailey's service at the University extended over 47 years.

For many years the Baileys spent their summers at Fredericton. It was here that they celebrated the silver and golden anniversaries of their wedding.

After the death of Dr. Bailey at the age of 86, Mrs. Bailey moved to Halifax, the scene of her first landing in the New World. Here she was a guest aboard the Cunard liner "Aquitania" when that giant ship docked at Halifax on July 4, just 91 years after the first Cunard, the "Britannia," set out from Liverpool, a pioneer in the world of modern shipping.

Recently in speaking of the Samuel Cunards, Mrs. Bailey said:

"I knew the Cunards when they lived in Chatham. They used to visit

Sheriff Woolhough in Fredericton. Mr. Cunard gave me a small statue about one finger high, when she left Chatham for England. I still have it."

To Stimulate Livestock Sales

Country-Wide Project To Establish a Market Overseas For Canadian Cattle

A gathering of 120 stockmen at Brandon unanimously favored a country-wide project to establish a market overseas for Canadian livestock and livestock products. The meeting, composed mostly of members of the Manitoba Livestock Pool, supported a plan of direct overseas sales to the powerful Co-Operative Wholesale Society of England, outlined by H. S. Arkell, superintendent of the Canadian Livestock Co-Operative. The proposal is to be placed formally before the six provincial bodies for which the Canadian Co-Operative is the selling agency, namely, Manitoba, Saskatchewan, and Alberta Co-Operative Livestock Producers, Ltd.; United Farmers Co-Operative Co. Ltd. (Ontario); Co-Operative Federes de Quebec; and the Maritime Livestock Board, Inc.

Fox Feeding Guide

Keeping In Step With Season Found To Bring Best Results

Keeping in step with the season is the way to ensure best results in fox feeding, studies in this respect at the Experimental Fox Ranch of the Dominion Department of Agriculture at Summerside, P.E.I., show. The report for 1928, 1929 and 1930 just issued states: "It is absolutely necessary that foxes should be fed in step with the season. When the earth is covered with green vegetation foxes require that vegetation, or the essentials of it from animals that have recently been eating it; during the fall months when ripe vegetation is prevalent, foxes require that ripe vegetation. In the late fall months when frost has destroyed vegetation and the prey of the foxes is in good condition foxes require a high meat ration. When the prey of the foxes is in poor condition and the vixen and her prey are often starved in, foxes do not require a large amount of food."

The Wool Crops

Co-Operative Wool Growers Give Summary Of Quality Of This Year's Clip

With much wool from Ontario already graded and cars beginning to arrive from all parts of the country at the various warehouses of the Canadian Co-Operative Wool Growers, officials of that organization are now in a position to make a fair summary of the quality of this year's clip. That from Ontario is strong in staple and bright, while the first of the clip from British Columbia indicates that the present wool is well up to the standard of previous years. Western Range wool is strong and exceedingly well grown but shows marked evidence of the recent sand storms.

Milk a Bone Builder

Another Good Reason For The Liberal Use Of Milk

Scientific research finds another good reason for the liberal use of milk, especially in the diet of the growing child, and that is in its capacity as a bone builder. The human body contains more calcium than it does any other mineral, and the best and cheapest source of supply is milk. Dietetic experts assert that a quart of milk daily ensures the growing child of the best storage of calcium for the manufacture of bones and teeth. It is equivalent in calcium content to 10 large oranges, 10 large helpings of cauliflower, 24 helpings of carrot, 32 eggs, or 20 pounds of beef.—Department of Agriculture, Ottawa.

Speeds Ripening Of Tomatoes

The farmer doesn't very often get a chance to fool his tomatoes, especially on a soft crop like tomatoes, but experimental work at Morden, Man., by the Dominion Department of Agriculture shows conclusively that this can be done. "With the advance of the season tomatoes ripen more slowly and the use of ethylene gas speeds up the process from late August on. Fruit in danger of frost damage can be picked and quickly ripened by the use of this gas.

The Republic of Andorra, a small country lying between France and Spain, pays its President a yearly salary of \$15.

Tree Planting Plan

Ten Year Policy For Establishment Of Wind Breaks On Saskatchewan Farms

Inauguration of a Saskatchewan government ten-year tree planting plan for the encouragement of the establishment of wind breaks on the farms throughout Saskatchewan was announced by Hon. J. F. Bryant, Minister of Public Works.

The tree-planting policy, which will be run in conjunction with the tree-planting policy of the federal government through its forestry farms at Indian Head and Sutherland and the various experimental farms operated by the federal government, will include the planting of over 100 acres to caragana seed for the purpose of growing seedlings for distribution among the farmers of the province under a supervision plan.

In addition to the tree-planting policy, the federal and provincial governments are inaugurating a joint grass seed policy whereby seed will be distributed among the farmers with a view to increasing the fibre content in the soil and retaining more moisture.

More Space For Cattle

New Arrangements Made For Shipment From Canada To England

A great deal of additional space has been secured on steamships in which to move cattle from Canada to the United Kingdom it has been announced by Hon. Robert Weir, Minister of Agriculture. Since the movement of cattle to England started this season the results have been of such a character that many more cattle were available for export than the original space contracted for would take care of.

The new arrangements mean that there will be space to ship over 10,000 head from now until the end of the season. The rate will be unchanged, namely \$15 a head.

Leaves Estate To Poor

Quarter Of A Million Dollars Bequeathed To Destitute Of London, England

Mrs. Mary Prior, a widow of Kingshorpe, Northamptonshire, England, has left the residue of her estate totalling nearly \$250,000 to help the down-and-out sheltering nightly in the crypt of St. Martin's Church in Trafalgar Square, London, England. This method of assisting the destitute in the heart of London, was instituted in 1824, when Rev. Dick Sheppard, the rector, curtained cubicles and provided for men and women. The destitute were given cushions to sleep on the benches. Food tickets are also supplied.

British Not Barred

May Come To Canada But Strictly On Their Own

"There is no restriction at all on immigration from Great Britain," Hon. Wesley A. Gordon, Minister of Immigration, told the House of Commons. "The only difference is that we are not actively encouraging movements into Canada." Any Britisher who desires to come to Canada, under his own steam, is free to do so.

With regard to the continent of Europe there had been rigid restrictions imposed.

Germans Invent Boat-Tent

A combination boat-tent has been designed by an inventor in Germany. The boat of light rubberized fabric, is inflated and may be used for paddling over lake or stream or as a bed, the inflated bottom serving as a mattress. Two light wood frames, a telescoping ridgepole and a light waterproof puppet complete the portable camping outfit.

"Mother, I don't think hens will ever go to heaven."

"Why not, child?"

"They lay eggs on Sunday just as if it were Monday."

Would Increase Value Of Fish Industry

Fish Flour Is New Product Not Yet On Market

From \$500,000 to \$1,500,000 annually may be added to the value of the fisheries industry of the country by the development of "fish flour," Henry O'Malley, Commissioner of the U.S. Bureau of Fisheries says.

Produced from the edible parts remaining from the filleting or packing of fish, the new product is dried and ground into a fine meal with a pleasant taste, odor and fluffy appearance. The new flour is more highly refined than the fish meals used for feeding animals, and in cooking may be easily disguised to make the fish taste unrecognizable, Mr. O'Malley said. At present the flour is not available commercially.

Provided the public takes to the new product, there is a potential production of 20,000,000 pounds of raw material available, it is estimated. Much interest has been shown in the work of developing the flour by national manufacturers and distributors of bakery products and specialized food products.

The bureau has succeeded in making very edible fish flour cookies, mixing the new type with the old-fashioned wheat flour and covering "fishy" tastes with cinnamon or ginger. It is said that the flour can also be used successfully in thickening fish soups or chowders and in the manufacture of salt crackers. Its use in bread has not yet been tried by the bureau.

Only the surface of the possibilities in developing this new product for human food has been touched, according to J. R. Manning, technologist of the Fisheries Bureau.

A Nation Of Fruit Eaters

Average Per Person In Britain Last Year Was 88 Pounds

British people are "rapidly becoming a nation of fruit-eaters, according to the Empire Marketing board's report on fruit supplies in 1930. "Last year more fruit was eaten in the United Kingdom than in any previous year," states the report, which mentions that the average consumption was 83 pounds for every man and woman and child. This was an increase of 12½ pounds per person over the previous year.

A pleasing feature of the report is the statement that a higher proportion of the fruit imports was supplied by the Empire last year than previously. Nearly 62 per cent. of apples, 40 per cent. of the bananas and more than half the peaches were Empire-grown.

Revealing Old Secrets

Settlements Of Olden Times Being Discovered By Aviators

"Secrets of antiquity that have remained hidden for centuries are today being brought again to the knowledge of men by the aeroplane. In Britain, the Middle West, and other historical regions throughout the Empire an air-borne camera is revealing details of towns, settlements and works of olden times that are assisting archaeologists mightily in their reconstructions of the world as it was fifteen, twenty or more centuries ago.

Keeping Cream Fresh

Studies in keeping cream sweet made by the Dairy and Cold Storage Branch of the Dominion Department of Agriculture, show conclusively that ice water not only keeps cream better than when it is placed in a refrigerator, but that it takes considerably less time. The reason for this lies in the fact that the ice water, being a better conductor than the cold air of the refrigerator, cools the cream more quickly.

New hose equipment makes it possible to direct a stream of water around a corner, thus helping farmers to reach some fire spots more effectively.

Plea Is Made For Retention In Canada Of Able Men To Carry On Important Research Work

Keeping Up Vitamin Supply

Diet Of Milk, Meat, Eggs, Vegetables and Fruits Is Very Helpful

Medical science still knows comparatively little about the necessities and supply of vitamins, although it recognizes that they "produce profound changes in growth," Dr. F. F. Tisdall, of Toronto, declared, in a scientific session the Canadian Medical Association at Vancouver.

"Everyone in the world seems to know all about vitamins but the medical profession," he remarked. After demonstrating by slides the results of "experiments with vitamin diets, he concluded by stating that, as a practical application of what is known, a diet of milk, meat, eggs, vegetables and fruits, should go a long way in supplying the essentials to proper nutrition.

Fifty per cent. of our diet today is made up of refined flour and sugars, he said, which is lacking in vitamins and almost lacking in proteins. The problem lies in seeing that the amounts necessary to make up for this deficiency are found in the remainder of the diet.

"The deficiency of a vital element cannot be made up by taking an excess of another," he added. Experiments had proved this. It has also been demonstrated that when fed on special foods children had reached greater growth than those fed a "normal" diet.

The difference in the vitality between the Oriental and the Occidental people had been traced by an authority, he said.

At least ten minerals are essential to life, said Dr. Tisdall, but all except three are found in sufficient quantities in our normal diets. The three are calcium, iron and iodine.

Weaning Young Pigs

Natural Weaning Has Been Found To Bring Best Results

Natural weaning gives best results with a litter of young pigs, and to obtain this, feed suitably for young pigs should be provided in the creep. A good mixture for the purpose is a half and half combination of mid-dlings and finely ground oats from which the hulls have been sifted. Young pigs will nibble at the feed at about two to four weeks of age, and by the sixth or seventh week should be eating quite freely. Under such a procedure shock incidents and weaning develops as a natural event. Pamphlet 135 N.S., Department of Agriculture, Ottawa.

Mining In British Columbia

1930 Showed Greater Mineral Production Than Any Previous Year

British Columbia took more ore out of its mines in 1930 than in any previous year, according to the annual report of Hon. W. A. McKenzie, Minister of Mines. Reduced prices in the world's markets cut down value to \$53,391,993 from the 1929 record figure of \$68,254,443, but in comparison with most past years the 1930 total is high. Ten years ago, in 1921, for instance, the mines of the province produced only \$28,000,000. Mining companies in British Columbia last year paid dividends of \$12,927,653, only a slight decrease from the record figure of \$13,642,308 paid in 1929.

Cattle For British Market

Twenty-seven cars of pure bred cattle arrived in Winnipeg from further west the other day en route to the British market over Canadian Pacific rails. This is the seventh shipment of the kind from Western Canadian ranches since last October.

Long distance racing matches for homing pigeons date back to 1818.

Need for a better understanding of the significance of and necessity for research was urged by Dr. H. M. T. R. president of the national research council, Ottawa, Oct., addressing the Canadian Society of Technical Agriculturists, in session at Guelph, Ontario. He advocated more co-operation between scientific men.

A plea for the retention in Canada of able men was made by Dr. T. D. Dr. who deplored the circumstances which led to the best brains leaving the country.

"You can't make a first class country with second class men," he said. "We must hold onto our brains. We have material out of which to make leaders for every activity to be found in Canada," he stated in an address in which he traced the development of national research movements throughout the world.

Production costs will strike a level that will help to stabilize land values, said Dr. O. C. Stine, president of the American farm economics board, who also spoke. While the next two or three years might mean a great deal of suffering to producing countries, he said, the outlook now is brighter than it was a short time ago.

Growth of the organization during the past year was reported to members by W. T. Macoun of Ottawa, in his presidential address.

Mr. Macoun emphasized the fact that the three new branches of the organization had been formed during the year, and reported increased activity in all departments of the society's work. He urged the members to pay more attention to the average man and suggested extension work of the C.S.T.A. be increased in the future.

Egg Consumption Is High

Per Capita Consumption Of Eggs Higher In Canada Than The U.S.

Prof. J. V. Rice of Cornell University recently called attention to the Canadian per capita egg consumption which is shown as 28.8 dozens, whereas that for the United States for the same year is shown as 16.7 dozens. While these figures are for 1925, as the figures from the most recent United States census have not as yet been made available, they show that Canada increased her per capita consumption from 15.1 dozens in 1901 to 28.8 dozens in 1925, and to 30.8 dozens in 1930, whereas that for the United States has hovered around the 15 dozen figure for some 30 or more years.

The editor of a produce journal in the United States comments as follows: "It would seem that the Canadian figures would give a fair answer to the question as to whether or not our increasing production of eggs can be disposed of by increasing consumer demand. No doubt, more careful standardization of quality will have some effect upon consumption but it will take, as well, considerable additional effort to bring our per capita consumption up to the same level as that in Canada."

Not Of Great Price

"You're looking bad, old man," said an acquaintance to Browne. "What's the trouble?"

"Domestic," answered Browne.

"But you always said that your wife was a pearl," remarked the friend.

"So she is," returned Browne sorrowfully. "It's the mother o' pearl that's the trouble!"

Butter Exports

Butter exports from the Port of Montreal during this season to date amount to 24,895 boxes or 1,394,120 pounds, as compared with nothing at all at this date last year. A belief prevails that this may be the beginning of a resumption of export trade on a substantial basis.

"You annoy me from morning till night, Minak."

"Impossible, madam. You are not up till mid-day!"—Fileogene Blaecker, Munich.

ENGLISH ROWING BELLES COMPETE ON THE CONTINENT

Above are seven members of the rowing crew which will represent Great Britain at Lucerne, Switzerland, at the international rowing regatta. These girls will compete against crews of German, Belgian and Swiss girls in several events.

SUNDAY SCHOOL LESSON

JULY 12

THE PREACHING OF THE APOSTLES

Golden Text: "We must obey God rather than men."—Acts 5:29.
 Lesson: Acts 3:1 to 4:31; 1 Corinthians 1:21-25.
 Devotional Reading: Romans 10:8-15.

Explanations and Comments

The Arrest Of Peter and John, 4:1-4.—Priests and Sadducees and the captain of the temple were troubled because Peter and John proclaimed the resurrection of Jesus Christ. The captain of the temple was the commander of the temple guard and was himself a priest second in rank only to the high priest. The Sadducean party, to which the high priestly class at that time belonged, did not believe in the doctrine of a resurrection, and, of course, it was especially galling to them to have the apostles teach the people that Jesus had risen from the dead. They arrested the apostles, but because it was too late after a trial that day they had them imprisoned for the night. The result of Peter's preaching, Luke now tells us, was that about five thousand men believed in Christ. No wonder the authorities were startled when men of this household of God proclaimed the resurrection of Jesus who had been crucified. The Crucified was the Risen Saviour.

Peter's Boldness Before the Sanhedrin, 4:5-12.—On the morrow rulers and scribes, who composed the Sanhedrin, sat in session. The Sanhedrin was the great Jewish tribunal which was supreme in all matters affecting the Jewish law, the sentence of death being the only penalty which they might not impose. Annas and Caiaphas, before whom Jesus had been brought a prisoner, Alexander and other great officials were present. The Sanhedrin sat in a semicircle and the prisoners, Peter and John, stood before them. The man whom Peter had healed was also there, as a kind of accessory to the "good deed."

"By what power, or in what name, have ye done this?" the officials demanded. Then Peter, filled with the Holy Spirit and eager to use the chance thus given him, replied: "Ye rulers of the people (chief priests) and elders (representatives of the Sanhedrin), ye say that we are here for doing good, but ye know unto you all, and to all the people of Israel, that in the name of Jesus Christ of Nazareth, whom ye crucified, whom God raised from the dead, even in Him doth this man stand, and healeth him." Thus Peter answered their question and with superb daring accused them of the crime of having put to death the Lord's Anointed.

"He is the Stone which was set at the corner of the temple," he said. "He was made the Head of the Corner." The stone made the head of the corner is the stone at the angle of two walls which supports and unites them. Had the arch been in common use the figure of the keystone would probably have been employed instead. "For in none of these salvation: for neither is there any other name under heaven that is given among men, wherein we must be saved." "We," in the Greek has an emphatic position at the end of the sentence, as has also "ye" in verse seven. By what name have ye, ignorant men, done this? There is no other name wherein we—you the judges and we the fishermen—must be saved.

"I find a man trying to lift a stone, which is too heavy for his strength; and I say to him: 'Get out your tackle and pulleys, and then you can lift it. You cannot move that stone without a tackle and pulley.' And no man can take the fruits of civilization unless he lays hold on powers other than his own; and no man can take the fruit of high, noble, divine, moral, spiritual culture unless he reaches out and lays hold of powers that are not his own, that make for righteousness."

The Apostles Threatened and Dismissed, 4:13-22.—The Sanhedrin marvelled at the boldness of Peter and John, who they perceived were unlearned and ignorant men; and seeing the man that was healed standing with them, they could say nothing against it. They could neither dispute the fact of the cure nor answer the arguments of Peter. "What must we do with these men?" they questioned. Accordingly they decided to threaten the apostles, hoping thus to prevent their speaking to any one in "this Name."

Peter and John were recalled and were charged not to speak nor teach in the name of Jesus. Respectfully and magnificently Peter replied, "Whether it is right in the sight of God to hearken unto you rather than unto God, judge ye; for we cannot but speak the things which we saw and heard."

Demand For Vegetables

The increasing demand for vegetable in the diet is probably largely responsible for the rapid expansion which took place last year in the vegetable canning industry throughout Canada. The increase in 1930 was 64.8 per cent. as compared with 1929. Total production amounted to 10,066,614 cans.—Department of Agriculture, Ottawa.

Post Offices In Canada

Canada has 12,427 post offices, an increase of 18 since last year, and of 180 since 1922, was the reply given by Hon. Arthur Sauve, postmaster-general, to a question asked in the House of Commons. Rural mail carriers throughout the country number 4,256.

Praises St. Lawrence Route

Captain Of Cunard Liner Speaks Highly Of Efficient Aids To Navigation

The aids to navigation on the St. Lawrence River are the finest to be found in the world, according to Captain W. C. Battle, D.R.C., R.N.R., commander of the Cunard liner "Antonia." "In making this assertion," said Captain Battle, "I feel I can do so without fear of contradiction, having served as a navigating officer on three Cunard World Cruises and practically every other shorter cruise to various parts of the world I have yet to find anywhere such a splendid service at the disposal of shipping as is provided by the many efficient aids to navigation on this river. The co-operation received from radio stations particularly is extremely helpful. Ship's queries are answered immediately and accurately."

Captain Battle, who is making his second voyage on the "Antonia" as a liner captain, has seen twenty-four years service as a Cunard officer. He joined the company when he was twenty-six years old as fourth officer on the "Carmania," leaving that vessel he was transferred to the "Lusitania" on which famous steamer he made her maiden voyage. After five voyages in this sister ship of the "Mauretania," he rejoined the "Carmania" as first officer. At the outbreak of the Great War, Captain Battle was appointed naval officer of the "Carmania," in which capacity he witnessed the historic struggle between the German cruiser "Cap Trafalgar" and the "Carmania" during which the enemy ship was destroyed within one of the most famous minor naval actions of the war.

Captain Battle commanded the destroyer "TB 29" in the Mediterranean toward the end of the War, after which he rejoined the Cunard fleet as first officer on the "Pannonia." Subsequently he served as Chief Officer and Staff Captain of the "Aquitania" in which ship he has spent the last three years before being appointed to command the "Antonia." Captain Battle declares himself extremely glad to be able to sail into Montreal and looks forward enthusiastically to serving a number of years in the Canadian Service of the Cunard Line.

Shopping Psychology

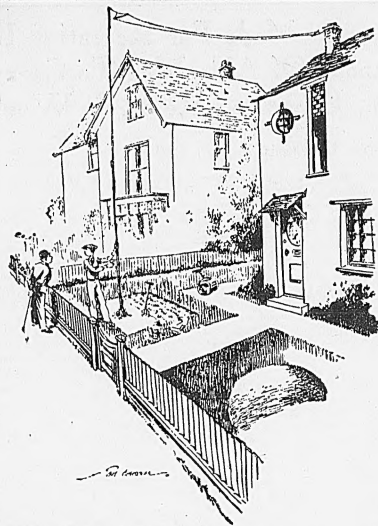

They tell the true story at the Hotel Victoria, New York, of the enterprising Seventh Ave. shoe merchant, who, after failing to dispose of a bargain batch of shoes at \$3.50 a pair, ran a dollar-a-day sale offering them at \$9 a pair, with an extra pair thrown in for a dollar more, closing out his entire stock in less than three hours!

Inherited the Knack

An old lady noticed one of those men who go around jabbing a pointed stick into scraps of paper to gather them up. Stopping beside him she said, kindly: "Don't you find that work very tiring?" "Not so very much," he replied. "You see I was born to it—my father used to harpoon whales."

The inventor of a new riveting machine claims it is noiseless. We hope he turns his talents next to peanut brittle and celery.

The average backseat driver considers himself the poet's ideal.—"A perfect woman, nobly planned to warn, to comfort and command."

"Good soil for growing things?"
 "Quite good. This was one of last year's hollyhocks."—The Passing show, London, England.

WORLD HAPPENINGS BRIEFLY TOLD

The will of Dr. Horace A. Bashore, a dentist of York, Pennsylvania, provides that all bills due him for dental work be cancelled.

During 1930 Canadians spent \$200,000,000 on alcoholic beverages and \$30,000,000 on cigarettes—more than the annual premiums on the entire amount of life insurance in Canada.

Alfred Aloysius "Trader" Horn, co-author of the book "Trader Horn," died in a hospital at Whitstable, England, after a brief illness. He was 78 years old.

The Vimy Ridge War Memorial will not be ready for unveiling before 1934 or 1935. Hon. D. M. Sutherland, Minister of National Defence, told the House of Commons.

Without any discussion a bill authorizing a loan of \$300,000 to the harbour commissioners of New Westminster, B.C., was given third reading in the House of Commons.

Gerald Egerton Williams, 29, who was shot down while flying over the German lines on the morning of Armistice Day, died at Bournemouth, England, of injuries sustained in an auto accident.

Mahatma Gandhi has been designated by the government to represent the Indian Nationalists on the federal structure committee of the second round table conference, which meets in London, England, September 5.

Recently appointed to the Manitoba and western Ontario command, Royal Canadian Mounted Police, superintendent Richard Field arrived at Winnipeg from Dawson, Y.T. He succeeds Supt. A. B. Allard, who was transferred to the Yukon post.

Glad, fifteen and a half miles southwest of Nelson, across the Kootenay River, and a flag station on the Canadian Pacific Railway on the Nelson-Rossland Branch, may become the new home of the Sons of Freedom, if efforts now being put forward by the province meet with success.

German Steel For Russia.
 The German Iron and Steel Trust has agreed to deliver to Russia 80,000 tons of bar iron, the same amount of sheet iron and 40,000 tons of steel products in the next two months at unstated prices. The deal was arranged in Berlin by the Russian trade delegation which recently came from Moscow.

Young Mattison has a loud-speaker in his room, and one evening he goes out leaving it on.

Mistress: "I hear sounds in Master Mattison's room. Go and see whom he has in there."

Maid (returning): "There is only the radio there. It is talking to itself."—Kasper, Stockholm.

BABY'S OWN SOAP

It's Best For You and Baby too

Recipes For This Week

(By Betty Barclay)

POOR MAN'S PUDDING FRAPPE

1/2 cup rice.
 5 cups milk.
 1/2 cup sugar.
 1/2 teaspoon salt.
 1/2 teaspoon vanilla.
 1 cup whipped cream.
 1/2 cup candied ginger.

Wash the rice well, then mix it with the milk, sugar and salt, pour into a baking pan and place in a very moderate oven, 300 degrees, to bake from two to three hours. Stir frequently for the first hour, then add the vanilla and finish baking without stirring. Chill thoroughly, skim off the crust and fold in the ginger cut in tiny pieces and half the whipped cream. Arrange in sherbet glasses, topping each with a rosette of whipped cream and a bit of ginger. Chill almost to freezing before serving.

DINNER PUNCH

(Serves 4-6)

Juice of 2 lemons.
 Juice of 1 grapefruit.
 2 cups water.
 Sugar or honey to taste.

Mix thoroughly.

For Variation: Add to the above mixture 1 cup of the juice of another fruit, such as grape juice, raspberry juice, loganberry juice, pineapple juice, elder or the juice from any canned fruit.

Or add 1 cup of a puree made by forcing peaches, pears, apricots, bananas or berries through a potato ricer or coarse sieve.

A Popular Service

Growing Demand Is Shown For Government Graded Beef

There could be no better indication of the rapidly growing popularity of the Beef Grading Service of the Dominion Department of Agriculture than the increase of over 70 per cent. in the volume of beef graded for sale throughout Canada between April and May of this year. Only a little over a year in operation the Beef Grading Service graded and branded a total of 1,190,337 pounds of "red" and "blue" brand beef in April last. In May this total raised to 1,933,022 pounds. Of the May total 1,333,247 pounds graded "good" for branding "blue," and 649,775 pounds "choice" for the "red" brand. Figures by provinces show a rapidly increasing demand for government graded beef, particularly in Ontario and Quebec.

Sea Safer Than Land

Statistics Show Sea Safer Safer, But Peril To Life On Land Is Increasing

Curious how a legend, especially when it is born and nurtured by fear, survives demonstrated fact. There is the legend of the "Peril Of The Sea." Of the danger of the sea. Ships have become bigger and safer, shipwrecks few and far between, loss of life at sea quite rare. Yet while the sea is being made safe, and the peril of life on land has been rising from year to year, people remain as unconsciously of one movement as the other. They still regard the sea as a place of peril.

Interesting statistics, bearing on this point, appear in the Shipping World. In 1895-1899, the average annual total losses of British ships were approximately 450 ships or about 175,000 tons, and the average loss of life in British ships was over 1,000 persons per annum. In 1924-1928, the corresponding figures were 175 ships or about 95,000 tons, and the loss of life about 220 persons per annum.

The story of these statistics of course, is the work of wireless, of bigger and better ships, of better weather reports, of a general world movement for promoting safety at sea. On the other hand, while we have been doing these things, cutting down on the toll of the deep, we have been devising machines with a most extraordinary ingenuity to make existence on land a hazard. Yet nobody seems to be overly exercised about the latter—New York World.

Aid For Blind Needed

Duty Rests On Government Opinion Of P. E. Layton

Not from one charitable organization or the combined facilities of all institutions in the country, but from the state, must come aid for the sightless members of the community, declared P. E. Layton, president and founder of the Canadian Federation of the Blind.

"We have been told that now is not the time to ask governments for pensions. Why not?" Mr. Layton asked. He addressed the fourth conference of the federation at Montreal, welcoming delegates from all sections of Canada, from Halifax to Vancouver.

Young Trees Distributed

From 1901 to 1930 over 116,000,000 young trees have been sent free to over 100,000 applicants living in the Prairie Provinces—Manitoba, Saskatchewan and Alberta—by the Canadian Government Forest Service of the Department of the Interior. Last year more than 6,000,000 tree seedlings and cuttings were shipped.

That the sun's surface is hotter at the poles than at the equator is a view recently advanced by Prof. Albert Einstein.

Natives of French Morocco prefer movies of the Wild West type.

A modern ocean liner costs about \$30,000,000.

Keep Free From Fat—Feel Younger

Unlike most salts, Kruschen isn't simply a laxative—if that's all you want. It's a salt that does a lot of things that a laxative can't do—but it's that all you want?

When you take Kruschen Salts you not only stimulate your bowels, liver and kidneys to function naturally and perfectly, but you supply every internal organ, gland, nerve and fibre in the body with nature's own revitalizing and rejuvenating minerals.

Get a bottle of Kruschen Salts at any drug store—take one-half teaspoon in a glass of hot water every morning before breakfast—cut down on sweets and fat forming foods and get some moderate regular exercise—in just a few days noticeable changes to activity and life grows brighter.

A Virginia woman writes: "I just started on my second bottle of Kruschen Salts and have been losing flesh right along—now I have fattened the secret of flesh reduction."

The Northern Seaport

Plans For the Development Of the Townsite Of Churchill

Plans for the development of the townsite of Churchill, seaport of northern Manitoba and terminals of the Hudson Bay Railway, call for the construction of a modern town, with central heating, fireproof public building and semi-fireproof residences, boulevards, parks and squares.

Constructed under a town planning system, approved of by Hon. Donald G. McKenzie, Provincial Minister of Mines and Natural Resources, every feature of a modern town will be provided. The townsite will be ready for settlement next year. No property will be sold, but it will be disposed of in 50-year leases, subject to revision every five years.

Churchill will be blessed with wide streets for through traffic, protected residential districts and generous space for recreation. All streets, parks and squares will be named after early explorers and heroes of Canadian history.

Good Poultry Record

Performance Of B.C. University Rhode Island Reds Is Attracting Attention

Professor E. A. Lloyd, head of the poultry department of the University of British Columbia, states that the members of the University's family of Rhode Island Reds have already averaged over 100 eggs in their second year and give promise of exceeding an average of 200 before the fall. Such production has never been recorded in any strain or breed anywhere in the world, he said. There are eight birds in the family.

Glady—After I'd sung my encore I heard a gentleman from one of the papers call "Fine! Fine!"

Harry—Goodness! And did you have to pay for it?

Hugo Grotius, the great Dutch scholar of his day, had a good law practice at 17 and was attorney-general at 24.

Japan now has 37,000,000 postal savings depositors.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

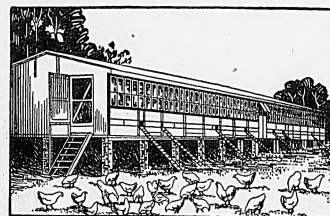

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARNS SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

TORONTO, ONT.

CONFERENCE OF POWERS MAY BE ARRANGED SOON

London, England.—The British Government intervened dramatically in discussions of President Hoover's moratorium plan by announcing its "willingness" to hold a conference of the powers chiefly concerned if the negotiations at Paris should break down.

The Associated Press learned that Great Britain has advised France that the French proposal regarding the Hoover plan constitutes an essential alteration of the Young plan in regard to the question of guarantees, and it is understood the proposals are unacceptable to Great Britain.

Officials would not confirm this information.

British official anxiety concerning the trend of events, and its opinion that the matter is one of extreme urgency, are reflected in a brief communique which announced the government's decision.

"Should no early solution be found," the communique said, "the government have expressed their willingness—in order that an agreement should be reached with a minimum of delay—to hold a meeting of the powers chiefly concerned at an early date."

Shipments of Frozen Fruit Are Increasing

New Process For Packing Adopted By Vancouver Island Fruit Growers

Victoria, B.C.—Frozen strawberries and other small fruits will be shipped from Vancouver Island to the United Kingdom in steadily increasing quantity, following the adoption of a new process for packing, according to Captain F. Livesey, manager of the Sasich Fruit Growers' Association, who expects that the plan will absorb a large part of the berry surplus this year.

A company has been capitalized at \$75,000, most of the stockholders being berry growers. The new company is expected to handle at least 30 tons of strawberries and logan berries this season, and will seek to establish a market in London, England, where samples recently forwarded attracted much attention.

Leads In Disarmament

Britain Has Now Gone The Limit Says Premier MacDonald

London, England.—"We have gone pretty nearly to the limit of the example," said Prime Minister J. Ramsay MacDonald a trifle wearily in the House of Commons, as he took the navy, army and air services, comparing the British figure with those of the other great powers.

"The naval appropriations of other countries have increased in much the same proportion as ours has decreased," observed the prime minister, speaking on the navy.

As he closed his disquieting comparisons Mr. MacDonald pleaded, "I would appeal to the other nations interested in peace and disarmament to admit that one nation cannot by its own example bring about disarmament—that it is the duty of every one to join together and make further disarmament possible by international agreement."

Princess Fats To Return

Ottawa, Ont.—Sufficient members of the permanent force will remain at Camp Hughes to conduct the various instructional classes, Hon. D. M. Sutherland, Minister of National Defence, has stated. The rest of the artillery and the Princess Patricia's are being brought back to Winnipeg since it was thought better to have the troops stationed in that city.

Joan Of Arc Memorial

Rouen, France.—Lady Douglas Haig has just presented to Monsignor de la Villabell, archbishop of Rouen, primate of Normandy, a purse of \$2,000 collected among English people to help towards the memorial chapel to Joan of Arc, to be erected on the market place of this city.

R.C.M.P. Changes

Winnipeg, Man.—Recently appointed to the Manitoba and western Ontario command, Royal Canadian Mounted Police, superintendent Richard Field arrived here from Dawson, Y.T. He succeeds Supt. A. B. Allard, who was transferred to the Yukon post.

Palestine's population has just been estimated at 900,000.

W. N. U. 1597

Five Killed In 'Plane Crash

Opening Of Air Pageant At Hamilton Marked With Tragedy

Hamilton, Ont.—Five persons were crushed to death, in a Travelair monoplane here when the pilot, attempting to swerve to avoid a crowded field, lost control of his machine as the fabric on the left wing ripped and sent the plane flying over on its back.

The dead: Captain Robert Sterling, of Montreal, pilot of the plane.

Harold Raine, general superintendent of the Canadian Press, Toronto.

J. H. Maher, Jr., owner of the plane.

Charles L. Daly, Jr., Toronto parachute jumper.

Alfred Rogers, of Hamilton, Ont. The plane had just participated in a "rat chase" over the city in an effort to draw a crowd to the airport, where the pageant was to have been held. The pilot swerved downward, but on account of the crowded field

altered his mind and attempted to zoom back up, but the fabric of the machine was ripped from the left wing, and the plane crashed about 150 feet to the ground.

The plane was a mass of debris and broken parts were scattered for yards around. All except Rogers were dead when taken from the wreckage, and he died in an ambulance en route to the hospital.

What was to have been a brilliant opening of a trans-Canada air tour to help make Canada more "air-minded" was marked by tragedy.

The plane that crashed was one of a numerous fleet that was to have travelled to the Pacific Coast, and back after a two-day air carnival at Hamilton. Captain Sterling would have piloted it throughout the tour.

Court Gives Judgment On Radio Broadcasting

Decision That Control Belongs To Dominion Parliament Not Unanimous

Ottawa, Ont.—Control of radio broadcasting in Canada belongs to the Dominion parliament and not to the provincial legislatures. This was the decision of a majority of the judges of the Supreme Court of Canada, handed down in the radio reference.

The court was not unanimous. Chief Justice Anglin, Mr. Justice South and Mr. Justice Newcombe ruled in favor of the Dominion's claim to full jurisdiction over radio on the ground, as the chief justice put it, of "convenience amounting to necessity."

In dissenting judgments, Mr. Justice Rinfret and Mr. Justice Lamont said the jurisdiction at issue was not unlimited and took the stand that the provinces were entitled to a measure of control, particularly over radio receiving operation.

The case was one of the most important heard before the supreme court in some time and turned on the construction of the British North America Act. It was brought about by the action of the Province of Quebec which contested the Dominion's claim to complete legislative control over radio.

Injured Aviatix Goes Home

Ruth Nichols Made Journey In Ambulance Airplane

Armonk, N.Y.—Ruth Nichols, Rye aviatix, whose proposed trans-Atlantic flight was interrupted by a crash in which she was injured at Saint John, N.B., returned home in an ambulance airplane piloted by Clarence Chamberlain.

Her representatives said she expected to be ready to start her interrupted trans-Atlantic flight as soon as her plane had been rebuilt, or in about six weeks.

United States Warns France

Germany Will Declare Moratorium If Hoover Plan Fails

Washington, D.C.—The United States has warned France, that failure of President Hoover's moratorium plan would unquestionably result in Germany's declaring a moratorium of reparations under the Young plan.

The acting secretary of the state department said that the French government had received pleasantly the United States' formal re-expression of its position on a debt moratorium.

Court-Martial For Aviator

Chateauroux, France.—The daredevil military aviator Sergeant Herve Martin, will be court-martialed on serious charges for his responsibility in the accidental killing of two persons and injuries to two others. He was flying low above an automobile when the under-carriage of the plane struck the occupants, decapitating one of them.

British Team For Canada

Riflemen From Old Country To Enter Competition At Ottawa

London, England.—Commander Sir Lionel Fletcher, R.N.R., retired, has been appointed captain of the British team which under the auspices of the National Rifle Association, has accepted the invitation of the Dominion of Canada Rifle Association to shoot in matches in Ottawa under Kolar and Mackinnon conditions as known at Bisley. The team will leave England by the Canadian Atlantic on July 24, arriving in Montreal on August 2, and will arrive home again, travelling in S.S. Australia, by about August 29.

EXPLAINS REASON FOR APPENDIX TO STAMP REPORT

Ottawa, Ont.—How the offending Appendix XII, attached to the report of the Stamp Commission which enquired into trading in grain futures, came to be affixed there was explained in the House of Commons when the prime minister tabled a written reply to a series of questions asked by Hon. W. R. Motherwell (Lib. Melville). The appendix takes the form of a chart filed by the Winnipeg Grain Exchange, and purports to show that only on a few days in the past four years were the prices for No. 3 Northern paid by the pool higher than those which could have been secured in open market trading.

Explaining the events which led up to publication of the report, Mr. Bennett's reply says:

"Mr. Commissioner Evans and the secretary of the commission (L. B. Pearson, first secretary of the Department of External Affairs), appeared before the prime minister on Saturday, May 2, with a typewritten copy of the report. The prime minister suggested to Mr. Evans and Mr. Pearson that the report should be printed, if possible, in time to be mailed to the chairman by the 'Mauretains,' which sailed from New York the following Wednesday, May 6. Only those exhibits which had been selected by the chairman were printed as appendices to the report. Among them was the chart which became Appendix XII.

"Neither the prime minister nor any representative of his government perused or checked the report or its appendices before they were sent to the king's printer. The commission was responsible for its report.

"The main report was sent at once to the printing bureau on May 2. The appendices were sent when the proof of the main report had been printed.

"A total of 10,126 copies of the report minus Appendix XII, have been distributed.

"The appendix has been removed from all copies of the report in the possession of departments of the government, and those persons to whom the report, with Appendix XII, attached, has already been sent, have been or are being communicated with requesting them to remove the appendix in question."

HEADS MEDICAL MEN

Dr. Alex. Primrose, of Toronto, who was chosen resident-elect of the Canadian Medical Association for 1932 at a meeting of the Council at Vancouver recently.

Complete Epochal World Flight

Post and Gatty Circle Globe In Less Than Nine Days

Roosevelt Field, L.I.—Wiley Post and Harold Gatty completed a flight around the world at 7:47½ (E.S.T.) July 1st, marking the 16,000-mile journey in less than nine days with 13 intermediate stops.

At 7:44 p.m., the white ship "Win-

nie Mac" shot at terrific speed over of salmon-colored sunset and a crowd of approximately 2,000 broke into wild cheers.

Post, the one-eyed pilot, who had done all the flying on the journey around the world, shot his swift plane over the crowd, banked steeply and made three leisurely circles of the field, selecting the best possible place for the landing.

Gatty and Post completed the world flight in eight days, 15 hours and 51 minutes. Their actual flying time in the air was only four days, ten hours and eight minutes.

As soon as the plane stopped coiling, Gatty and Post climbed from the cabins, turned their plane over to a police guard, and entered an automobile which carried them half-a-mile across the field to the administration building.

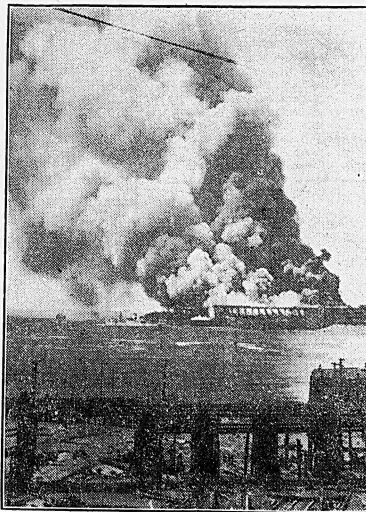

As they left the automobile, friends and admirers of the flyers grabbed them up and carried them the last stage on their shoulders as flash-lights boomed in the falling darkness.

Suddenly the police lines gave way and the field became a bedlam with excitement, cheering, and numerous first flights breaking out as police, with night sticks in their hands, attempted to force a way for the flyers.

MacNider Praises Herridge

Ottawa, Ont.—Back from a ten-day visit to Washington, Col. The Hon. Haddon MacNider, United States minister to Canada, Monday, June 29, spoke in glowing terms of the impression made by Major W. D. Herridge, Canada's new minister to the United States. "Everybody was tremendously impressed with Major Herridge," Col. MacNider declared.

\$100,000,000 GOES UP IN SMOKE

This picture was taken when the fire which destroyed part of the famous harbor of Saint John, N.B., was at its height. The scene, looking south, shows some of the piers burning rapidly while ships are being towed away from the fire zone. Before the tragic conflagration had burned itself out more than \$100,000,000 worth of damage had been done.

Radio Policy

Quebec May Appeal To Privy Council On Question

Ottawa, Ont.—The finding of the majority of the Supreme Court of Canada in favor of exclusive jurisdiction of radio was gratifying to Hon. Alfred Durnell, Minister of Marine, whose department has charge of radio.

"We did not think it advisable to outline a policy on radio broadcasting until we got the decision as to jurisdiction," said the minister. "I now rests with Premier Taschereau whether he will appeal to the privy council. If Quebec does not appeal we will take up the question as soon as the time limit for making an appeal has expired."

Canada's Sea Limit Fixed

Jurisdiction Of Customs Changed From Twelve Miles To Three

Ottawa, Ont.—A decision which sets aside that section of the Customs act giving Canadian revenue officers power to seize Canadian craft within the 12-mile limit, was handed down by the supreme court of Canada in the action of Dunphy versus Croft.

The appeal was argued on behalf of the plaintiff, Captain Sylvester Dunphy, of North Sydney, by D. A. Cameron, K.C. The decision is a far-reaching one in that it restricts the jurisdiction of customs officers to the three-mile limit or territory within Canadian coastal waters.

ASSISTANCE IS PROMISED FOR DROUTH AREAS

Ottawa, Ont.—Expressing the fear that Canada is faced with perhaps "the greatest national calamity that has ever overtaken the country," as a result of the serious drouth which prevailed in Saskatchewan and sections of Alberta and Manitoba, Rt. Hon. R. B. Bennett, prime minister, announced in the House of Commons, that he would submit to parliament a measure for relief of the sufferers.

The prime minister announced also that it was his intention, as soon as disposition has been made of measures on the order paper and other measures to be considered, to submit to parliament unemployment measures "that we hope will enable us successfully to grapple with that difficulty during the coming winter and the balance of the year that is before us."

Prefacing his remarks by the statement that this is the 64th anniversary of Confederation, Mr. Bennett went on to declare that Canada could contemplate the past with some measure of pride and satisfaction and the future with courage, hope and confident faith. But with respect to the present, conditions in certain parts of the west were such that "notwithstanding the copious rains of the last 36 hours it will not be possible for any harvest in the way of grain to be reaped in a very substantial area."

Probably more than 5,000,000 acres of land had been adversely affected by the drouth, continued Mr. Bennett. From information received from the government, it was learned that at least 100,000 people were affected directly, and also their herds.

Canada, he asserted, had not hesitated to meet disastrous conditions affecting other countries. Therefore he proposed to ask parliament to assist in meeting this. The extent of the assistance would necessarily depend on information as to the need.

Co-operation of the Liberal party in any measures for meeting the situation was expressed by Rt. Hon. Mackenzie King. Co-operation would be given in the fullest measure by all members associated with him. He suggested that, as considerable sums would have to be spent in connection with this emergency, as well as unemployment, something in the nature of a national relief board should be established.

Mr. King remarked that at the time of the Halifax disaster a relief commission had been appointed to administer a fund of \$20,000,000. He was confident that \$20,000,000 would not begin to meet what the administration would have to spend in connection with relief this year.

Premier Bennett referred to the constitutional difficulties involved in administering federal funds for provincial purposes. The Halifax board, he stated, had operated under the terms of the War Measures Act, which could not now be invoked. However, it was suggested by Hon. Hugh Guthrie, Minister of Justice, that if parliament declared unemployment an emergency, the Dominion Government could take direct steps to deal with it under certain provisions of the B.N.A. Act.

A BIG DECLINE IN PRODUCTION OF WHEAT IS SEEN

Kansas City, Mo.—Arthur M. Hyde, secretary of agriculture, said in an interview here, that, in his judgment, the world-wide production of wheat during the coming year would be at least 350,000,000 bushels short of last season.

This, he said, included Russian wheat and took into account the probability that Canada, at most, would have only 225 million bushels this year, that Argentina, turning to flax, would be 30 per cent. short in wheat acreage, and that Australia would have a reduced acreage of 40 per cent.

The secretary refused to comment on the course of wheat prices in the face of these gloomy forecasts, but said prices should react to the condition when it became generally known.

The secretary said, he was informed by the Bureau of Agriculture Economics, that the Danube basin—great wheat reservoir of Europe—has a carry-over of only 7,000,000 bushels, compared with approximately 28,000,000 bushels on hand August 1, 1930.

New Taxation Now Operative

Stamps On All Cheques and Increased Postal Rate Started July 1

Ottawa, Ont.—A number of the taxation features incorporated in the Budget, brought down by Rt. Hon. R. B. Bennett in his capacity of Minister of Finance at the beginning of the present month, came into operation on July 1. Of these the one that has most widespread effect is the increase in postal rates.

Penny postage disappeared except only in respect of drop letters—that is, letters delivered in the same town as that in which they are mailed. An additional cent was imposed in the budget on "out-of-town" letters, so that henceforth the minimum rate for these, on and after July 1, will be three cents.

The stamp tax of two cents on all cheques, irrespective of their value, became effective also on Dominion Day. Previously the tax applied only to cheques issued for upwards of \$10.

Provisions of the income tax amendments, with the sole exception of that relating to the two per cent. payable by Canadian corporations to non-resident shareholders, became operative July 1.

New Constitution For Spain

Universal Suffrage, Religious Freedom and Abolition Of Titles

Madrid, Spain.—A preliminary draft of a new constitution providing for universal suffrage, religious freedom and abolition of all titles of nobility was made public by the government commission created some time ago to prepare the document.

It provides for a presidential term of six years, the president to be elected by a majority of the senate and the Lower House in joint session. There would be 240 senators divided equally among the "cultural," industrial and labor entities, and 470 deputies elected by popular suffrage, including the vote of women.

Returns from the day's general assembly election confirm the original belief that the Conservative Republicans have an overwhelming majority in the assembly with the Monarchists left only five deputies out of more than 350 and the Communists with none at all.

Postage Stamps On Cheques

May Be Used Instead Of The Excise Stamps

Ottawa, Ont.—Postage stamps may be used for the two cent tax on cheques and money orders, Premier R. B. Bennett announced in the House of Commons. In opposition to the tax, which went into effect July 1, Hon. Fernand Rinfret, former secretary of state, declared one of the nuisances in connection with it was that a special excise stamp had to be used and these were frequently not easy to obtain outside banking hours. The prime minister then told the members of the House that a change had been made from the method of collection a few years ago, and postage stamps might be used.

Demands Pool Inquiry

Edmonton, Alberta.—Demand for a public inquiry into the operation of the Alberta wheat pool and its elevator system, such as was recently conducted in Manitoba, was made by W. R. Howson, Liberal member of the legislature for Edmonton, in a public statement issued here.

The Hoover Proposals

May Be Regarded As Preliminary Step Toward Calling International Economic Conference

Dr. W. W. Swanson, noted economist and adviser to Premier R. B. Bennett at the Imperial Conference last year, when interviewed recently concerning the effects of President Hoover's proposals to declare a moratorium for one year on all war debt payments, and their reaction on western Canada, stated that they were of fundamental value as an aid in improving the demand for wheat and other farm products.

He was of the opinion, however, that Mr. Hoover's action could only be regarded as a preliminary step toward calling an international economic conference at London for the immediate dealing with the problems of currency, credits and the gold standard. He stated that it was significant that Mr. Hoover referred to the creation of a new reserve of gold in the United States under the present economic conditions.

Dr. Swanson believed that the Canadian government might use its influence with the Imperial authorities for the calling of such a conference in order that the reserve of possible credit and debt burdens resting upon Europe might be ameliorated, and thus relieve the pressure upon the people.

As a first step, he suggested that the opinions of Sir Montague Norman, of the Bank of England, and Mr. McLaughlin, of the Bank of International Settlements, should be obtained.

"The promise of the federal government to pay a five cent bonus on export wheat under some possible arrangements with the railways is good as far as it goes, but is wholly inadequate to meet the crisis in western agriculture," emphatically declared Dr. Swanson. "In any event, the bonus should be paid directly on all wheat delivered at country elevators, and the scheme should be divorced from any readjustment of railway rates."

"Even more important," he went on, "is the necessity of paying one dollar per acre on all wheat sown on the dried out areas and where there will be no harvest. This would be the farmer reaping a crop would be doubly benefited, first by being fortunate in harvesting a crop, and secondly by being paid a bonus."

Dr. Swanson urged that this direct measure of relief should be paid to the farmers through the secretaries-treasurers of the municipalities as this would both simplify methods of payment and assure the farmer at present struggling with debts, of getting the money at once.

The prime minister undoubtedly had a firm grasp of the situation, declared Dr. Swanson, and that other remedial measures to deal with unemployment would be taken. He urged, however, that his proposals for direct relief to the farmers in the stricken districts should be incorporated in the federal programme, and felt certain that such an announcement by the government would, if made in the near future, go far in restoring confidence in the west.

Prefer Canadian Honey Combs
Comb honey foundations and comb honey sections are in considerable demand in the West of England and the South Midlands, writes Douglas S. Cole, Canadian Trade Commissioner at Bristol. Canadian supplies are considered of high quality and compare very favorably with those of other countries as well as those of local manufacture.

Might Prove a Boomerang
A Welland minister at Hamilton conference recommended that all Christian people forego ice cream and candy and give the money to the use of the unemployed. That idea may not appeal greatly to those now employed in producing ice cream and confectionery, value of which is about \$36,000,000 a year in Canada.

"Will you cease to follow me about?"
"It is nothing. I am only keeping in the shade"—Ill 420, Florence.

Eliminate Fear From Cancer

Disease Can Usually Be Successfully Treated In The Early Stages

"Cancer can, in the large number of cases, be successfully treated providing it is caught in its early stages," declared Dr. Douglas Quick, Memorial Hospital, New York City, during an open session of the Canadian Medical Association Convention at Vancouver.

"I doubt very much, however, if this generation will see the cause of cancer revealed," he added, "because the energy of those interested is not in that direction."

"If we could only dislodge the idea that cancer is the one dreaded disease—if we could eliminate the fear from a person's head so that they would seek treatment, we could accomplish much."

The doctor said statistics showed that only 25 per cent. of patients seeking advice do so in its early stage.

Periodical medical examination of all persons over the age of 35 was advocated by Howard E. Munn, minister of Saskatchewan. The public should be relieved of the fear of cancer and relieved from suffering. They should be made to know that even though both parents died from the disease, it does not necessarily follow that a child will also die from cancer. It must be remembered the cancer never begins in healthy tissue.

"I feel that the Dominion of Canada should become cancer conscious," he said.

Public health and medical organizations have been largely responsible for a big decrease in disease in this country, said Dr. Munroe. Disease is a problem of the municipal, provincial and federal governments, but it is a greater problem of the individual, he stated.

"In the treatment of cancer, teamwork is essential," the doctor said. "The problem of cancer is not a one-man job. It may require the family doctor, the specialist, the nurse and the intern. Centralization and teamwork among the clinics is the main factor."

Found Sign Was Genuine

Man Proved Montreal Restaurant Keeper Meant What He Advertised

As an experiment a Montreal restaurant advertised, "All you can eat for 30 cents."

A man over six feet tall and weighing in the neighborhood of 250 pounds entered and settled himself for a comfortable meal. The manager and staff soon realized they were in the presence of an expert gourmand, and gathered discreetly around, keeping an accurate account.

The official count was given out as follows:

Four fruit cocktails.
Eight veal cutlets and potatoes.
Eight leg loafs.
Five orders of French fried.
Five orders of ham and potatoes.
Two orders of roast beef.
Two orders of tomato salad.
Six ice creams.

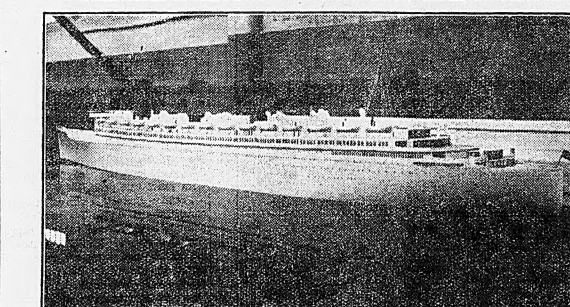

Industrial Manitoba

The Industrial Development Board of Manitoba, in its report covering the last five years, shows the following: 275 new industries; 239 plants expanded; 140 new lines added. Capital invested in Manitoba industries increased over \$63,000,000. The value of products increased \$62,657,000. There were 11,940 additional employees and \$15,451,000 more paid out in wages.

Trappers Have Good Success

Two trappers, J. Stark and G. Distaff, spent the winter and spring in the Barren Lands north-west of Stony Rapids and Pond du Lac (where fur-bearing animals are supposed to be scarce) and emerged with 210 white fox skins.

A SCALE MODEL OF THE NEW GIANT CUNARDER NOW UNDER CONSTRUCTION

The new Cunarder liner, which is now under construction at Clydebank, Scotland, when completed will look like the 18-foot model pictured above floating in a testing tank which artificially produced wind and waves for rigid experimental purposes. This giant liner when finished will be the largest ship afloat with a gross tonnage of 73,000 and a length of 1,018 feet. Details of her construction, which it is said will embody principles entirely new to shipbuilding, are being jealously guarded.

Prince Is Great Landlord

Takes Personal Interest In Tenants Who Are Happy and Contented

A fact often overlooked is that the Prince of Wales is one of the largest landlords in the country. Tenants live happily along a stretch of country running into hundreds of miles—130,000 acres of it.

The Duchy of Cornwall includes every kind of agricultural land and every type of homestead from cottage, in Hertfordshire, Berkshire, Somerset, Dorset, Wiltshire, Devon, Cornwall, and the Scilly Isles. The Manor of Kennington, London, S.E., is, of course, also included.

The Prince has visited practically every portion of his domain, and one has only to call upon a few of the tenants to realize the very real affection with which he is regarded.

It is always the same—"Where's His Royal Highness coming to see us?"

The Prince's personal interest in his estate is shown in a score of ways. If he cannot visit every home himself he sees that some official of the estate does so at regular intervals. Reconditioning is going on all the time by the works department and independent builders.

The tin-mining industry of Cornwall is encouraged to greater development, such as the sinking of new shafts. Every new cottage or flat must have its bathroom, and if the tenants can find anything to complain about they seldom complain in vain.

A Belated Reward

Hamilton Physician To Receive Medal Won In 1893

Sixty-eight years ago, Dr. William Philip, of Hamilton, Ontario, won a medal for proficiency at Victoria College. Some weeks ago, Dr. Philip in a course of an address before the Medical Society of Niagara Falls, remarked that he had won the medal but the college was then too poor to afford to strike one and had never conferred it upon him.

Later it was learned that Victoria College governors examined their records, and discovered that it was as Dr. Philip said. A medal is being struck, and will be presented shortly.

Cartwright's Advice

At any rate, no modern salesman confronted with the difficulties of the farmers has had the hardihood to offer them the advice said to have been tendered on one notable occasion by Sir Richard Cartwright, who told a delegation of agriculturists that they should work harder and eat less.

Talkies will be produced in Persia.

Trees and Soil Drifting

Planting Of Forest Belts Suggested As A Possible Remedy

A correspondent has suggested that Saskatchewan might do itself a good turn by taking over strips of land running from north to south and planting trees and shrubs on them. It is possible the trees would provide timber and fuel at a later date, but the great gain, it is hoped, would result from a stoppage of soil drifting.

These forest belts would have to be several miles wide to be effective and it might even be questioned if wide belts of 20 or 30 miles apart would be sufficient to break the force of the wind. However, there is little doubt that these forest belts would be a great encouragement to general tree planting on the part of land owners so that in a lifetime the treeless parts of the province might be converted into parkland country.

The proposition should be investigated by forestry and crop experts and viewed as a "long haul" scheme to give greater stability to Saskatchewan agriculture. If some such plan were adopted men who happened to be without employment could be given a job by the state at a low wage and allowed to remain there until something better turned up.

Experience during the last 10 years has shown the perils of drifting soil, a condition from which parts of the country have not been free even in seasons of normal moisture. If something is not done to overcome the problem, large areas of farm land may have to be abandoned.—Regina Leader-Post.

Butter Export Resumes

Volume Of Exports Of Butter Overseas Is Increasing Rapidly

The current market report of the Dominion Dairy and Cold Storage Branch gives information of significant interest to farmers and dairymen in the volume of exports of butter overseas. Last year during the export period, May 1 to June 7, Canada exported a total of 937 packages of butter; this year (1931) for the same period exports totalled 25,017 packages. Exports for the week ending June 6, totalled 14,672 packages, all but 381 of which went to the British markets at London, Liverpool, Bristol, Cardiff, and Manchester. Evidently butter production in Canada has settled down to an export market basis which may in the long run prove a real life to Canadian farmers.

Everything Up-To-Date

A storm-proof roof garden, talking pictures in every room at the wave of a hand, potatoes that practically peel themselves, and a telephone-type writer system that will make many guests feel that the place is haunted, are among the unique contrivances being installed in the new Waldorf-Astoria Hotel, nearing completion on Park Avenue, New York.

U.S. Puts Lid On Lottery

All Irish banks have agreed, at the request of the United States post office, to return any money or counterfeits received in the future from sweepstake subscribers in the United States. It was said that bank managers had been informed that unless they did this, letters addressed to them would be subject to delay and inspection.

Poultry Outlook

A new factor in the poultry outlook at the present time, as reported by the poultry division of the Dominion livestock branch, is the extent to which farmers in the new provinces are now buying six, eight and ten weeks old pullet chicks.

London Clocks Puzzle Experts

Formerly Reliable They Have Developed Strange Eccentricities

What is the matter with all the clocks in London?

Clocks which for years have had spotless reputations for accuracy have suddenly developed strange eccentricities.

The experts are puzzled, and are inclined to blame the weather.

"Some of the clocks we regulate in the city have been decidedly erratic during the past few weeks," said a representative of a famous city firm of watchmakers. "We have also had many wrist-watches brought in to be regulated."

A Richmond clock and watch repairer said that he could not remember such a busy spring during the 30 years he had been in business.

"Almost every customer I have has sent for me to regulate the household clocks during the past fortnight," he said.

"Grandfather clocks and small watches seem to be the chief offenders."

Caragana Wind Breaks

Seeds and Seedlings To Be Distributed Free To Farmers

Seeds and seedlings of caragana hedge will be distributed free to farmers of the west for use as wind-breakers, it was announced by Hon. Robt. Weir, when shown that in many parts of the west the only remaining green crop is that protected by field shelter hedges.

Advertisements by the federal department for caragana seed to be delivered to experimental farms or forestry stations have been broadcasted over the prairies. Fifty cents a pound is being paid.

The forestry stations expect to produce 100,000 seedlings per acre and 50 acres will be available for 1933 and 1934 distribution.

This fall the five Saskatchewan institutional farms will put in 60 acres of Caragana seed and next year between 5,000,000 and 8,000,000 seedlings will be ready for distribution.

Ban On British Cattle

Foot and Mouth Disease Prohibits Shipments To Canada

As a consequence of outbreaks of foot and mouth disease among cattle in the British Isles, the Canadian department of agriculture has cancelled all permits for the importation of livestock from the old country as from June 20, excepting only shipments now actually embarked.

Other orders prohibit the importation into Canada of fertilizers containing animal matter, and second-hand bags for bagging, from all foot and mouth infected countries; and provide for consular and other certification restricting the importation of grains, mill feeds and food stuffs for livestock feeding from foot and mouth infected countries.

New Relief Scheme For B.C.

Municipalities Will Not Have To Maintain Transient Unemployed

Municipalities of British Columbia will be relieved entirely from the cost of maintaining transient unemployed under a completely new relief scheme adopted by the provincial government.

The province and the Dominion will divide evenly the total cost of maintaining all transients, as from and including June 19 last, Premier Tomin announced.

Where municipalities have to take care of unemployed who are not transients, but municipal residents, the Dominion government will pay a third of the cost, the province a third and the municipalities a third, the premier said.

Millions Of Trees

The Dominion Forestry Department at Sutherland, Sask., this year distributed about three million young trees to Saskatchewan farmers, for use in planting windbreaks, shelter belts and other purposes.

A movement has been launched in Scotland for earlier church services so that automobile owners may enjoy longer Sunday trips.

U.S. Puts Lid On Lottery

All Irish banks have agreed, at the request of the United States post office, to return any money or counterfeits received in the future from sweepstake subscribers in the United States. It was said that bank managers had been informed that unless they did this, letters addressed to them would be subject to delay and inspection.

Poultry Outlook

A new factor in the poultry outlook at the present time, as reported by the poultry division of the Dominion livestock branch, is the extent to which farmers in the new provinces are now buying six, eight and ten weeks old pullet chicks.

In Favor Of Two Languages

Dr. Saunders, Of Marquis Wheat Fame, Speaks At Authors' Association Meeting

An atmosphere of outspoken criticism pervaded sessions of the Canadian Authors' Association meeting in Toronto.

Wilson MacDonald, of Toronto, began by launching an attack on university professors, literary critics, and the Canadian public in general for their indifference to Canadian literature.

Dr. C. E. Saunders, famous for his Marquis wheat, rebuked both English and French-Canadians for their blindness to each other's merits.

All Canadians should speak both languages, he contended. He regarded Ottawa as a most tolerant city; Toronto, he said, is a tolerant city; not were certain cities in Quebec. He pleaded for a closer understanding between the two races.

Mrs. Camille Roy, of Laval, university, speaking in French, outlined the growth of French-Canadian literary criticism since 1918. She named two schools of writers in Quebec, he indicated, the nationalistic and the Canadian.

The first confined its attention to French Canada, while the second was interested in Canada as a whole. Agreeing with Wilson MacDonald, Mrs. Roy said writers were wedged in a vice between the snobbery of the Canadians who worshipped European culture and the snobbery of Europeans who despised all things Canadian.

Robert Choquette supplemented Mrs. Roy's remarks by suggesting more translations from French into English, so that the work of French-Canadian writers would be accessible to all in the Dominion.

Prof. Lionel Stephenson, of Tempe, Arizona, assured the convention there was no prejudice against Canadian writers in the United States. On the contrary he pointed out, many of the most successful authors in that country were Canadians, though this fact was seldom recognized by Americans. Robert Watson, novelist of Winnipeg, urged young writers to guard their copyright, and Madame A. P. Benoit, of Montreal, lauded activities of the association as a stimulus to creative authorship.

Has Only Military Aerodrome

Paris, Home Of Aviation, Has No Commercial Air Port

Although it may come as a surprise to most people, it must be admitted that Paris, the home of aviation, has no commercial air port. Ever since Lindbergh landed at Le Bourget in May, 1927, the world has taken it for granted that this aerodrome must be the most modern and the most accessible of any landing stage. As a matter of fact, it is a military aerodrome owned by the state, is six miles from Paris and is not very convenient for foreign visitors.

Although generally cluttered up with military machines, there is considerable freight and passenger traffic from the air port. At the present it is running at the rate of 200,000 parcels and 45,000 passengers a year. If this continues to increase it will be necessary either to transfer the air forces to St. Cyr in Versailles park or to build an exclusively civil air port.

It is intimated that the Paris Municipal Council is in favour of turning Le Bourget into the most modern civil air port that can be built. In such an event an electric railway will be built right up to the aerodrome and a pneumatic tube laid down for the transport of mails.

Millions Of Trees

The Dominion Forestry Department at Sutherland, Sask., this year distributed about three million young trees to Saskatchewan farmers, for use in planting windbreaks, shelter belts and other purposes.

A movement has been launched in Scotland for earlier church services so that automobile owners may enjoy longer Sunday trips.

CHAPTER XXII.

Keep her in bed," said Dr. Bennett, as he joined Simeon upon the porch. "She's had a terrible shock, but she's strong for all she's so slender; and we must save that baby. I'll drop in again this time, I'm not such a fool as to think you can keep her mind off this horrible possibility, but give her all the encouragement you can. Tell her about cases you've heard of where boats supposed to have been lost were picked up weeks afterward. Put your imagination to work and invent some stories if you can't remember any! She's got pluck, and grit, and everything on her side; but a broken heart isn't the fairest tale that cynics would have us believe. Mr. Bartlett, and Nick is just about the breath of life to that little girl."

The doctor's eyes were moist. He blew his nose vigorously, and added: "What's being done?"

Simeon cleared his throat. "I'm too confounded dazed to really know; but Mr. Halliday's doing everything they is to do. He's sent a message to a friend of his who's cruising somewhere off Florida in a big steam yacht—says if no word comes from the 'Sea Bird,' he'll hire it and hunt 'em himself—says it's likely they may have landed on one of them islands, and if the storm put their radio out of order they couldn't do nothing but wait till they was picked up, that is, if their boat was injured. The big liners don't go nowhere near some of them places, and they might stay there months. Gosh! It's going to be powerful tough on Gay—waitin'."

"It will be tough, but no more," said the doctor, "but a thousand times worse for her. Mr. Halliday will have the comfort of doing something. It's a bad business. Mr. Bartlett, it's a bad business. I wish to God the boy had stayed at home."

Bad news travels fast. Before noon everyone in Bakersville knew the worst. John Maxwell, who had glanced but briefly at his paper that morning, heard the news on reaching the bank, and without a word to anyone, returned to Mary for comfort. It seemed to her that he had aged five years in the short half hour since he left her.

"It was I who sent him," he kept repeating. "It was I who sent him. If it hadn't been for me..."

"That's a morbid way to look at it, John," she answered. "We'll all miss him. Gay as well as the rest of us who had his interests at heart."

She left his side and went to the window, looking out at the glory of her blossoming garden. The sight hurt her, remembering how Nick had played there with her own children so long ago. At last she turned away. "I'm going to Gay now," she said gently. "And you must go back to work, John. Of course everything possible will be done to find them. Julie telephoned me just before you came. She said Mr. Halliday was already planning to start for Florida where he will make every effort to locate them if—if—"

Mary stopped abruptly, and going to her husband, kissed his bowed head.

"Johnny, you mustn't feel this way. Gay would be the last one to blame you. I know. The thing we rest of us to help her now in every way we can. She fainted when she saw the news in

the paper, and is in bed. Julie didn't know what the doctor said; but at least, we can care for the little boys until she's up again. I'll go down at once."

"I'll take you down in the car," said John Maxwell, rising. He felt suddenly better at the thought of doing something, as Mary had known he would. "There's nothing in the world I wouldn't do for Gay; yet we can't make her forget this terrible day," he added sadly. "She will never forget it, however it all ends."

It was in silence that they rode to the house on Elm Street.

"You go on up," said Simeon to Mary Maxwell, "maybe another woman's what she needs. She ain't cried. God a'mighty! I wish she would! I been settin' there tellin' her a pack o' lies about how they ain't no doubt but what Nick's safe and sound; but I got the bunch she knows I'm lyin'. I ain't much of a hand at monkeyin' with a tunch."

"All she did was to lay there an' say till my heart most busted: 'Yes, Uncle Sim, o' course he'll get back all right. I'm not gonna't to get worked up because o' the baby. It's the little daughter Nick wanted, and maybe she'll be here when he gets back. Think how happy he'll be! No, I'm not worryin', Uncle Sim. Gosh! I couldn't ha' set there a minute longer an' not made a baby o' myself.'"

Tears were furrowing their way down his wrinkled cheeks. John Maxwell wiped his own eyes, and May said: "You mustn't get me to crying, too, if I'm to help Gay. I'll take the boys home, Mr. Bartlett, if it will make things easier."

A long hour passed before Mary came back to the two men waiting anxiously below. She sat down in the big rocker, and drew a deep breath. "Well," she said, in answer to their pleading eyes, "she cried, and I think that'll help her. She's drowsy now, worn out with emotion, and I hope she'll sleep. She wants me to bring the boys back tonight—says she can't spare them. I didn't tell her any lies, but I think I gave her a bit of courage, though the dear child has a stock of her own. And John" (Mary's voice trembled at last), "the first thing she said was to tell you not to blame yourself for sending Nick away. She spoke of it more than once, and said that as soon as she was better she wanted to see you. That's all I'll tell her. She's anything we can do, Mr. Bartlett, day or night, just call us. I'll go along home now and take the babies. It's just as well that they shouldn't be with Gay today. She'd try to keep up before them; and there's a limit to human strength and endurance, you know."

"I feel like I'd most reached the end o' mine," confessed Simeon. He looked pitifully old in the bright morning sunlight. "But when I think o' that plucky little girl upstairs—Sonny," he broke off suddenly, as the little boy appeared around a corner, "here's Miss Maxwell come to take you an' Nick on a holiday. You dun wash yer hands like a good boy."

"Can little Marfa go too?" asked Sonny, his face beaming. "She'll be awful lonesome 'out us boys. You going to have 'freshments, Aunt Mary? It's a good, hot day for 'freshments, seems to me."

The child's words broke the tension of the hour, and the elders smiled as Mary answered: "Yes, little boy, we'll have any kind of 'freshments' that you want. And of course little Martha can come if Mr. Halliday is willing."

"I'll go right over'n ask him," said Sonny eagerly. "He seems awfully busy this morning, but I guess he'll let her go."

A week dragged by—ten days, and no word from the missing yacht. Gay was up again now, spending her days on the porch, a pitifully drawn look about her eyes that told of sleepless nights, but a smile on her lips whenever the little boys demanded her attention.

"Isn't it most time for Daddy to come home?" asked Sonny; and Uncle Sim turned away as Gay answered steadily:

"Yes, dearie, we'll hear from him soon. I'm sure."

The children's innocent chatter about their father came near to breaking Simeon's heart.

"I do'n how she keeps up before me," he said to Halliday; but when John Maxwell made the same remark to Mary, she answered:

"I do. It's because of the baby that's coming. She's afraid to let herself brood. But it frightens me just the same. I'm wondering if her brain can stand the strain. Dr. Bennett says she's wonderful, but I can

see that he's worried. When does Mr. Halliday start?"

"To-morrow, I believe. His friends were a good way off, but they put back as soon as they got his wireless, and a message came today saying the yacht would be ready when he got there. The poor fellow looks ghastly—worse than Gay; yet according to Julie Nipps his is anything but a happy marriage."

"That makes it worse, of course," said Mary understandingly. "Perhaps he has things to regret, Johnny, while Gay has never had a thought away from Nick, nor he from her. Whatever comes, she's made a success of her marriage. Not all women have that comfort when they lose their best beloved."

It was the first of June, and like all June in Bakersville, the weather was hot, and gave promise of hotter days to come. Uncle Sim longed vaguely for the cooler air of his own State Line. He would have packed up Gay's entire household and taken them with him gladly, but he knew that was impossible, and for their sakes he stoically faced the thought of a Bakersville summer. But his brave attempts at cheer were sometimes pitiful, and once Gay remonstrated.

"Uncle Sim dear, don't try so hard to pretend there's nothing wrong. We won't talk about it, and we must keep the children happy; but we needn't make believe before each other, need we? Besides, there's a chance that Mr. Halliday will find them. You believe that, don't you, Uncle Sim?" (To Be Continued.)

Tinned Hams From Denmark

Danish Methods Of Marketing Sets Mark That Is Hard To Beat

There is food for thought for the Canadian farmer in the recent arrival in the Canadian market of "tinned hams" from Denmark. When it comes to marketing its production, or over-production if you prefer, the little kingdom of Denmark sets a pace which is hard to beat. Not only do they market their product in all the usual forms, maintaining the dominant position in the British market, but they are now processing their finest cuts, packaging them attractively, and making a strong bid for the larger consuming centres in our own Canadian market. Canadian farmers should find an incentive to opportunity in the situation. A study of the fundamental principles underlying Danish methods might hold much of useful interest.

Suit Made In Record Time

Shear Sheep and Finish Suit In Three Hours and 22 Minutes

In response to a challenge made by Sir Malcolm Campbell in a speech before the Bradford Rotary Club recently, a Yorkshire manufacturing firm and a Leeds tailoring firm have broken the time record in producing a suit of clothes. Starting with the shearing of a sheep the suit was finished in three hours and 22 minutes. The previous record set in the United States in 1898 was six hours and five minutes. The suit was made to fit Rt. Hon. J. H. Thomas, secretary for the Dominion, who agreed to wear it at the Imperial Industries Fair, at Bradford, next month and later at the Imperial Economic Conference.

Report Is Denied

Regina-Saskatoon Edmonton Air Mail Not To Be Discontinued

Officials of the post office department denied reports that the Regina-Saskatoon-Edmonton branch of the western air mail route was to be disbanded after July 15. It was pointed out that this story, similar to one some time ago saying all the mail services were to be disbanded, was apparently based on the cancelling of the present air mail contracts in order to give the government an opportunity to review the situation. These contracts terminate at different dates, it was explained.

Don't worry about the weather. There will be lots more.

CORNS

Lift off - No Pain!

QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the corn. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Made in Canada

British Admiralty Gives

Credit To Londeron

Invention Of R. H. Davis Saves Lives

Of Men Trapped In Submarine Six men who escaped from the sunken submarine "Poseidon" apparently owe their lives to the invention of a Londeron, R. H. Davis, who provided them with what is described in effect as a "third lung" resembling a lifebelt with a gas mask attached. It was designed to enable men trapped in a submarine to breathe freely until they had a chance to escape.

"It is twelve months since the apparatus was first served out as part of the equipment of submarine crews," Gorman Davis, the inventor's son, said. "It consists of a breathing bag carried on a man's chest and a buoyancy apparatus. To the bag is attached a cylinder of oxygen and the man inhales and exhales air which is being continually purified in the bag. With one of these bags it is possible for a man to live an appreciable time under water. Goggles are used to protect the eyes."

"If there is life aboard a submarine after she is sunk it is possible with this apparatus to escape to the surface no matter how deep the vessel may be."

"Pressure in one chamber must be raised—usually by flooding—until it equals that outside the ship. Then hatches may be opened and the men escape. Should they be injured or too weak to help themselves much, the apparatus is sufficiently buoyant to carry them up to the surface and keep them afloat. Should there be other men alive in the 'Poseidon' there still seems a chance that with this escape apparatus they may get free."

The Admiralty confirmed the fact that six men escaped by means of the Davis apparatus.

THE RHYMING OPTIMIST

By Aline Michaels

MUSIC AND MEMORY

The music weaves its vague enchantment here
With the dimness of the lofty room.
Till once again I hear the lark's notes, clear
And high across June meadows sweet with bloom.

I see the white clouds drift and on wide slopes
The catkins of shadow fleetly pass;
With restless fingertips the sunlight gropes
Among the thrusting emerald blades of grass.

Now memory and music intertwine;
Though summer and the lark fled long ago,
Again loved notes, in these bright dreams of mine,
Go lifting up from flute and piccolo.

How strange, these wandering players have the key
To rooms I thought belonged alone to me!

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish many of these destructive parasites cannot exist after they come in contact with the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

A Good Fish Story

The season's best fish story comes from Banff Springs, Alberta. A 20-pound trout in Lake Minnewanka, yanked an angler off a pier into the water, but the fisherman held on and with the aid of a police officer and a boat finally landed the prize.

Zaro Agha, the ancient Turk aptly commented on the occasion of his first fishing ride that he hadn't been so excited in the last 130 years.

Aeroplane Prospecting

Areas in Northern Saskatchewan Will Be Investigated

The aeroplanes will be employed by Professor J. B. Mawdsley of the University of Saskatchewan in locating and charting mineral resources in Northern Saskatchewan. Areas which would otherwise be accessible only with much difficulty can be readily reached by the aeroplane route. Investigation of areas of schist and greenstone, presenting favourable prospects for metallic minerals will be made.

Under instructions from the Provincial Department of Railways, Labour and Industries a survey of coal and clay deposits lying north of the Saskatchewan River is also being conducted by Professor W. G. Worcester of the Geological Department of the University of Saskatchewan and Walter Hastings, developing engineer. For some time these deposits have been known to exist but they have never been thoroughly investigated as to their extent, quality or commercial value.

The survey is being made with a view to developing this area if tests prove that development would be feasible.

Health Of Children Affected

Children Of Unemployed Men In Montreal Show Effect Of Malnutrition

The effect of the economic depression on the children of unemployed men has been revealed by the health service of financial federation, conducted by the Child Welfare Association of Montreal. Ninety per cent. of the children, who are being examined at the rate of 200 a week, are underweight. Miss Esther Both, R.N., director of the Child Welfare Association, stated.

One child was found to weigh 24 pounds less than normal. Lack of nutritious food has also caused dental decay and clinics conducted by the association are busy doing what they can to halt the rot. A youngster of 13 had to have her entire upper row of teeth extracted, Miss Both said.

Deportation Question

British Government Has No New Information On Subject Of Deportation From Canada

Rt. Hon. J. H. Thomas, secretary for the Dominions, was asked in the British House of Commons whether he had received any reply to the representations he said the British Government would make to the Canadian Government regarding deportation from Canada of British subjects who had become public charges in the Dominion, either because of unemployment or because they were suffering from disease.

The minister replied he was not yet in a position to add anything to his answer of April 21, when he had told the House the government was taking steps to get in touch with the Canadian authorities.

Have Completed Survey

Survey Made Of Proposed Mafeking Cut-Off In Manitoba

Engineers of the Canadian National Railways have completed a survey of the proposed Mafeking cut-off in Manitoba, and have made a report to the minister of railways and canals. Sir Henry Thornton, president of the National road, told a special parliamentary committee dealing with railway finances. Hon. R. J. Manion, the minister, said he had not seen the report, nor was he aware of its recommendations, because it had been received by his department only a short time ago.

Operated On Himself

Internate At Philadelphia Successfully Removed One Of His Tonsils

An internate at Philadelphia, Pa., attempted to contribute to scientific fields by removing his own tonsils, it has just been disclosed. Dr. Charles T. Mescham, of Petersburg, Va., a graduate of the University of Pennsylvania a year ago, succeeded in removing one of the tonsils and almost had the other one out when he became ill. Mirrors, a disc on his forehead and one on the wall, were used.

Muscular Rheumatism Subdued—When one is a sufferer from muscular rheumatism he cannot do better than to have the regular rubbings with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. The more virtue in a bottle of it than can be fully estimated.

The interrogation point was designed from the shape of the human ear. It is quite futile to ask questions unless we lend an attentive ear to the answer.

Phosphorous under water is practically indestructible.

IF YOU CAN'T NURSE YOUR BABY - TRY EAGLE BRAND

THOUSANDS of mothers have found that Eagle Brand is ideal for infant feeding, where they are unable to nurse their own children.

Little Helps For This Week

"Whosoever will be great among you, shall be your minister; and whosoever of you will be the chiefest, shall be servant of all. For even the Son of Man came not to be ministered unto, but to minister."—Mark x. 43-45.

What time we nurse our discontent Rather instead should we recall How once in servant's guise He went, Who was Master of us all; Nor any work, whereby was wrought The Father's will, too irksome thought.

Need any be disquieted, Whose heart this memory inclose? Who follows where the Lord hath led, What matter is it where He goes? For working with Him, side by side, The meanest task is glorified.

—Mary Bradley. We cannot be too little to be like Him, nor so great as to work outside of Him."—Adeline D. T. Whitney.

Terrorists Are Sentenced

Mafia Terrorists In Italy Face Sentences Totalling 15 Centuries

One hundred and fourteen notorious Mafia terrorists face sentences totalling 15 centuries as a result of their conviction at a trial in Italy lasting almost a year.

Thirteen of the defendants got life, 16 got sentences of 15 to 25 years, 16 will be imprisoned ten to 15 years, and 69 will go to jail for one year. Fifty-seven others were acquitted.

The charges against the prisoners included 43 murders, 26 attempted murders, and many cases of assault, extortion, blackmail, shooting, robbery and bribery.

Persian Balm promotes daintiness, charm and beauty. Magical in its effect on the skin. There is nothing like it for creating and preserving a lovely complexion. Cooling, caring, it soothes and relieves all roughness caused by weather conditions. Delicately fragrant, it enhances the most finished appearance. Makes the skin rose-leaf in texture. Truly a perfect skin requisite for every discerning woman.

Saskatchewan Cattle Shipments

One hundred head of Saskatchewan cattle went forward to the British markets the other day, 30 of which were taken from a feed lot within half a mile of Saskatoon. This is the first of several weekly shipments that will be made by the Saskatchewan Co-Operative Livestock Producers Limited.

Took Pinkham's Medicines

"It was always tired and I had severe pain my periods. Lydia E. Pinkham's Vegetable Compound helped me. I took it before my two children were born and I am taking it now at the Change. I have also used Lydia E. Pinkham's Sanative Wash and found it a great relief for inflammation and for a discharge which bothered me." — Mrs. Caroline Dorey, 196 Head St., Simcoe, Ontario.

The Chinook Advance

Published by Mrs. M. C. Nicholson every Thursday afternoon from The Advance Building, Main Street, Chinook, Alberta, and entered in the postoffice as second class mail matter. All letters addressed to the editor for insertion in The Advance, must be signed to show bona fides of the writer. Publication in all cases is subject to the judgment of the Publisher. We do not necessarily coincide with views expressed.

The subscription rates to The Advance are \$1.50 per annum in Canada and \$2.00 outside of Canada. The transient advertising rates in The Advance are—display, 40c per inch for first week and 30c for each succeeding week, providing no change is made. For heavy competition an extra charge is made for first week. Reading notices, 10c per count line. Legal advertising, 15c per count line for first week and 10c for each succeeding week. Cards of thanks, \$1.00.

The Advance is a member of the Canadian Weekly Newspapers Association and the Alberta Weekly Newspapers Association, and observes the prices and conditions of these organizations.

Heard Around Town

Vincent Rideout is the new assistant at the post office.

Ed. Turner is taking in the stampede at Calgary this week.

Miss Mae Peterson is on her vacation, visiting at Drumheller and other places.

Miss Ina Rennie went to Hanna last Friday, where she will visit with Mrs. Harry Smith.

O. Mielke and Roland Massey left Saturday evening by motor for Calgary to attend the stampede.

Vincent Rideout and Billy Mcintosh had their tonsils removed at the Cerebral hospital last week.

Service next Sunday at 7.30 in the United church. Subject: "Poverty." Rev. J. D. Woollett, pastor.

Mrs. L. Ford has been conducting evangelistic meetings each evening this week in the United church.

Joyce Milligan, Doretta Whelan and Joyce Brodine all had their tonsils removed at the Cerebral hospital last week.

Miss Clarissa Sinclair, of Saskatoon, is spending a vacation at the home of her aunt and uncle, Mr. and Mrs. R. Stewart.

Mrs. S. A. Bowd, of Winnipeg, arrived here Wednesday morning and will visit for a time at the home of her daughter, Mrs. A. V. Youell.

Mr. and Mrs. Richard Nicholson and Miss Irene Marcy left on Saturday morning for Calgary, where they are taking in the stampede.

Mrs. Fred Otto, Laverne Dobson, Happy Milligan and Norman Jacques left Friday morning for Calgary, where they attended the stampede.

Mr. and Mrs. L. Ford and family, of Los Angeles, California, arrived here by motor last week to visit at the home of their brother, H. Ford.

Willie Thompson, who has been attending the Hollingshead Business College at Calgary for the past year, returned to his home here last week.

Ed. C. Pfeiffer, who has been night operator at the C.N. station here for some time, has been transferred to Alaska. Percy Renteria, of Hanna, will fill the position here.

The Ladies' Card Club met last Tuesday at the home of Mrs. O. Nelson. Honors for the evening went to Mrs. Kennie and Mrs. Butts. The club meets next week with Mrs. Lee.

The bodies of Mrs. Graham and her son, who were washed away in the cloudburst at Wayne June 16, were found in the Red Deer river last Thursday. The body of Mrs. Graham was recovered near Finnegan's Ferry and that of the son near Dorothy.

M.D. of Collholme No. 243

A meeting of the council of the Municipal District of Collholme No. 243 was held in Collholme school on Saturday, July 4, 1931, at 1 p.m. All members were present. The minutes of the last meeting were read and adopted.

The following resolutions were passed:

Dunster—That in view of the present financial circumstances of the residents of the district, that the provincial government be asked to complete the Hanna Alaskan section of the highway and thus create employment for such residents.

Stewart—That the approval of the council be given to the granting of a lease covering the original road allowance between the S.E. 1/4 of 28 7 W. 4 and the S.W. 1/4 of 28 7 W. 4.

Ferguson—That the approval of the council be given to the granting of a lease covering the original road allowance between sections 13 and 14, 26 8 W. 4th.

Turnbull—That a grant of \$50 be made to Youngstown and District Agricultural Society.

By Law No. 31

A By-Law for the Consolidation of Arrears of Taxes

Whereas in the opinion of the council it is expedient and desirable to permit the owner of any land used for farm purposes to consolidate any taxes payable to the municipality in respect of such land, which were in arrears on the first day of January, 1931, and remain unpaid, for the payment of such arrears in not more than five equal consecutive instalments, together with interest as herein set out.

Now, therefore, the council of the Municipal District of Collholme No. 243, by virtue of the powers granted by an act to provide for the consolidation of certain local taxes, being Chapter 54, Statutes of Alberta, 1931, enacts as follows:

Any owner of land used for farm purposes and situated in the municipal district, who may make application prior to the first day of December, 1931, for the consolidation of any taxes payable to the municipality in respect of such lands, which said taxes were in arrears on the first day of January, 1931, and remain unpaid, shall be granted the privileges of the said act upon the following conditions: The reeve and secretary-treasurer are hereby authorized and empowered to make, enter into and execute, on behalf of the district, an agreement or agreements for the purposes aforesaid and to do all the necessary acts upon or for the execution of same; such agreement to be executed by the said reeve and secretary-treasurer and by the said owner not later than the first day of December, 1931.

The said agreement shall contain a provision that the said taxes as consolidated shall bear interest from the date of execution of the agreement at the rate of seven per cent. per annum.

The said agreement shall also contain a provision that the said owner shall duly pay the current year's taxes and shall pay the arrears of taxes so consolidated in five equal consecutive instalments not later than the 15th day of December in each year, the first of which shall be made on the first day of December, 1931, and each subsequent payment on the same date in each year.

The agreement hereinbefore referred to may be in the form and contain the stipulations of a draft agreement hereto attached.

When in the circumstances of any particular case the council, by resolution, so authorizes, the said agreement may contain a provision for the payment of said arrears

of taxes so consolidated by four equal annual consecutive instalments, payable not later than the fifteenth day of December, the first of such instalments to be made on the first day of December, 1932.

Done and passed in council the 4th day of July, A.D. 1931.

Dunster—That By-Law No. 31 be now read for the first time. Carried.

Turnbull—That By-Law No. 31 be now read for the second time. Carried.

Stewart—That By-Law No. 31 be now read for the third time and finally passed. Carried.

A number of bills were passed.

Thackeray

(Too late for last week.)

Crops here have been suffering for lack of moisture, but Jupiter Pluvius showered a goodly supply of it on Monday night, which will benefit the late sown grain, but all appearances the early sown wheat cannot give more than a half crop.

The water problem this year is serious, sloughs, dams and wells drying up. Messrs Crawshaw, Robinson, Such and Haug are finding the situation acute.

Our local mail carrier had engine troubles just after leaving the Big Stone post office with his car last Friday evening, which necessitated his leaving the truck and borrowing the postmaster's "Packard" to continue the trip to Kinmundy. Next day, with the assistance of Hugh Cornell, they made the necessary repairs.

The school picnic held at Langford last Saturday was well attended. A number from this district joined the throng. Kinmundy and Langford baseball teams put on an interesting game, which resulted in a win for Langford.

Sig Haug was a Youngstown visitor last Thursday, having dental work done.

Gophers are very numerous this year, and in addition to playing havoc with the grain crops they are cleaning up the young garden stuff. J. W. Lucas reports that they have started in on his potato patch. Such a life!

Mr. and Mrs. Paul Seeger and family, Mr. and Mrs. W. Morrison, Miss Duff and Carl Hodge motor over to the Blood Indian school picnic on Friday last. Paul, son Marvin and Billy Morrison took part in the ball games. All report a good time.

Another nice rain fell on Sunday of this week, which will help the late sown oats and garden, but a real soaker is needed.

Obituary

Funeral services for Mrs. Henrietta Carver Swartzlander, pioneer of Oyen, Alberta, and mother of Dr. H. C. Swartzlander, prominent Calgary physician, who died Sunday morning at her residence, 1308 Fourth A street northwest, will be held Tuesday morning at 10 o'clock from Jacques funeral residence. Rev. Dr. George A. Dickson will officiate and interment will follow in the Burnsland cemetery.

Born in Buck's County, Pennsylvania, in 1858, Mrs. Swartzlander came to Alberta, in 1912, settling in Oyen. She had been a resident of Calgary for the past two years. She was predeceased by her husband, Dr. Fred Swartzlander, of Omaha, Neb.

Mrs. Swartzlander is survived by her two sons, Dr. Swartzlander of Calgary, and Joseph R. Lincoln, Neb., and one daughter, Mrs. Charles Nelson, of Calgary.—Calgary Herald.

Peyton Pickings

Holidays have come at last.

Peyton school closed June 30 with an "Indian style party," that is, each child brought his own cup, spoon and dish that he was to use at luncheon time. The afternoon was happily spent by the teacher, Mrs. K. H. Nicholson, and her class, when novelty games were played and jokes and riddles told. A most dainty lunch was provided by the teacher and parents of the district, and each child took pleasure in serving the food that he or she brought. The afternoon was broken up when a picture was taken of the group of eighteen pupils. The two high school pupils, Olga Peterson and Louise Robison, have ended their school days at Peyton, the former having taken all the grades from one to nine at that school.

A large crowd from the surrounding districts gathered at the river, at Nelson's ranch, on July 1st. It looked rather cloudy in the morning for an ideal picnic day. However, when they reached their destination the clouds rolled away and the sun came out beautifully. After the weener roast and dinner the districts joined together and went over to the base-ball diamond, where several good games of ball were played between Reaville and Langford, Flaxland and Atter. Refreshments were served on the grounds. In the evening every one departed for their homes feeling satisfied and happy. When the people reached home they found that several good showers had occurred while they were away.

The missionary meeting was held at the home of Mrs. George Hutchison last Wednesday. There was only a fair attendance, but an enjoyable time was spent.

Rev. and Mrs. McDougall and family were dinner guests at the home of Mr. and Mrs. Hutchison last Wednesday evening.

Some of the farmers in the district have been busy the past week sowing oats for green feed.

Mr. and Mrs. J. Bayley and Joan, Mr. and Mrs. Dunster and family, Mr. and Mrs. Allen and family and Mr. Knowles, the Anglican preacher, were dinner guests at the home of Mr. and Mrs. Warren last Sunday.

There was a large congregation at the English church service held in Peyton school last Sunday.

The following are the averages obtained by the Peyton school pupils in their final June examinations:

Grade 2—Annie Bellmont 78, Frances Huggard 64.

Grade 3—Barbara Shier 84, Bruce Hutchison 76.

Grade 4—Jack Shier 72, Peter Heidebrecht 69.

Grade 5—Alice Peterson 83, Jean Huggard 64.

Grade 6—Agatha Heidebrecht 83, Dorothy Robison 81, Ruth Robison 74.

Grade 7—Ernest Peterson 84, Irene Shier 79, Stanley Huggard 58.

These pupils were all advanced to the next grades, two being conditioned in one subject each. High school averages are not yet known.

Mrs. R. H. Nicholson, Teacher.

Small Advertisements

WANTED—Housework by respectable people. Apply Box 6, Chinook.

Here and There

(675)
Up to December 15 more grain had been delivered to ships at West Saint John, during the entire month of December, 1929, and this traffic bids fair to exceed that of last season for Mediterranean and other European ports, according to information gathered at Canadian Pacific Railway headquarters. In addition to grain at seaboard, 1,500,000 bushels were in transit at mid-December, with further orders coming in daily.

Holders already of two Dominion championships, the first all team of the Canadian Pacific Railway's Toronto freight offices added further laurels to their crown by taking, in face of stiff opposition, the silver challenge shield of the company's eastern lines championship, and a week later journey to Winnipeg where they captured a third Dominion trophy by defeating Weston Shogs, winners of the western lines championship, by 35 points. Winning team was: W. T. Warren, (captain), A. T. Curle, H. Braid, C. W. Seiler, W. J. Turk and C. W. Macey (spare).

Scheduled to play at least 25 games in less than three months practically every capital of Europe the Manitoba University graduates hockey team sailed from Vancouver aboard Canadian Pacific liner Melita for Liverpool, January 2. They will return to Canada from Liverpool at the end of March.

The "Corn Belt" of North America has in the last few years slowly pushed its way north and today many parts of the prairie provinces of Canada are producing corn of different varieties and of high quality. At the fifth corn show under the auspices of the Saskatchewan Corn Growers Association, one of the finest exhibits of corn in the history of western Canada was on display.

A recent official report states that over 35,000 lbs of the esteemed octopus were caught in 1929 and over 28,000 lbs in 1929. The fish is eaten chiefly by Orientals in British Columbia and brings between five and ten cents a pound on the market. The catch is the incidental product of other fishing operations.

Mr. and Mrs. J. G. Connell and son George, of the Acadia Hotel, accompanied by Mrs. E. Warner sister of Mr. Connell, left by motor on Friday on a three weeks vacation at Banff and Vancouver.

Born—To Mr. and Mrs. Robert Mawdsley, on Thursday, June 25, at their home in the Stinson district, a son and daughter. We are sorry to report that both children died within two hours of their birth. They were buried in the Cottrell Cemetery on Friday, June 26th.—Cerebral Recorder.

To The Pool Members of D4

You will shortly be receiving the ballot Wheat Pool delegate to represent you for the coming year. Do not throw away the ballot. Be sure you vote.

As a candidate for this position, I would say that a change is necessary. Too much secrecy has been practised by the officials, both directors and delegates. Mistakes have been made by the present board which cost the members millions of dollars. At least some of the direct are not keeping abreast of the times and a change appears imperative. For the past five years no change has been made on the board and the results of their management are now before you.

It would seem that a change of delegates is essential to have a change in management. A vote for me is a vote in support of these changes. I respectfully solicit your support, and will do my best to remedy existing conditions and make the pool the efficient organization which it was intended to be when organized eight years ago.

Thanking you in the anticipation of your support. Yours,
N. F. MARCY.

FARM FOR SALE

The Soldier Settlement Board of Canada offers for sale by public tender:

The South Half of Section Thirty (30), in Township Twenty-nine (29), Range Six (6), West of the 20th Meridian, as described, and subject to the conditions, reservations, stipulations and exceptions contained in the existing Certificate of Title.

Terms: Not less than ten per cent. of the purchase price in cash, balance to 15 years at 6 per cent. interest amortized.

Each tender must be accompanied by an accepted cheque for \$100.00.

Tenders will be opened at Calgary, Alberta, at noon, on Monday, July 20th, 1931.

The highest or any tender not necessarily accepted. Address tenders and enquiries to THE SOLDIER SETTLEMENT BOARD OF CANADA, 603 Southern Building, Calgary, Alberta.
